This Agreement does not authorize CCSO enforcement of the Tribal Fishing and Hunting Codes, except as already permitted prior to adoption of this Agreement.

The Tribe authorizes a limited waiver of sovereign immunity for the sole and limited purpose of enforcing the mutual indemnities in Section 38 of this Agreement. Venue for any action filed under this waiver of immunity shall be in the United States District Court, Western District of Washington, or if that Court lacks jurisdiction, then in the Jamestown S'Klallam Tribal Court.

Along with Section 38, the terms of Section 9 shall survive the termination or expiration of this Agreement. The limited waiver will be set out in a Tribal Council resolution and attached to this Agreement as Exhibit A.

This Agreement is in effect for four years from the date of ratification by the last party to the Agreement to ratify. The Agreement remains in effect regardless of leadership changes within the organizations of signing parties.

This Agreement is not deemed to be in force unless ratified by the appropriate legislative and/or governing bodies of each party.

If either party's legislative/governing body fails to ratify the Agreement within 30 days of initial

consideration, the parties agree to make an effort to work toward ratification for an additional 30 days to complete the Agreement.

It is the responsibility of the party who experiences the change to accomplish and distribute a new signature page as described in AGREEMENT DISTRIBUTION, below, within 30 days of the change. The amendment shall be attached to the original document.

The parties agree to meet prior to the expiration of the Agreement in order to reach a new Agreement. In the event that a new Agreement is not reached between the parties, the parties agree that in regard to Tribal Public Safety general authority peace officer status, to use binding last best offer arbitration under Chapter 7.04A RCW as provided in Chapter 10.92.020(10)(a) RCW.

In the event that the Sheriff does commission a Tribal Officer, the Tribe agrees to a limited waiver of sovereign immunity and to comply with the requirements for insurance pursuant to Section 38 of this Agreement.

Nothing in this Agreement requires a party to cross-deputize an officer.

A party may suspend or revoke the authority of any officer to exercise commissions granted by the other party. A party shall notify the other party within 24 hours, in writing, of any suspension or revocation.

Upon the decertification of any officer, the parties shall notify each other and the County and Tribal prosecuting attorneys in writing within 24 hours.

27. RIGHT OF FIRST REFUSAL and RESPONSIBILITY

The parties agree that when life or property is in jeopardy, the closest officer(s) will respond. Operations requiring a joint operation of agencies will be directed by the agency of jurisdiction unless otherwise agreed upon.

The Tribe will provide proof that the County, its appointed and elected officials, agents and employees, are specifically named as additional insureds in a policy with the same company that insures the Tribe or by endorsement to an existing policy or with a separate carrier approved pursuant to RCW Title 48. The General Aggregate Limit shall be \$6,000,000.00. The County is a self-insured entity.

Parties understand and agree that Clallam County is self-insured and a member of a liability pool which includes coverage for professional liability, among other categories of coverage, in adequate quantity to protect against legal liability arising out of contract activities. Clallam County shall provide evidence of its status as a self-insured entity meeting these requirements within fifteen (15) calendar days of the execution of this Agreement. Upon request by the Tribe, Clallam County must describe its financial condition and the self-insured / liability pool funding mechanism. The Tribe, or any other third party, need not be named as additional insureds under the self-insurance / liability pool coverage policies as said policies prohibit Clallam County from naming third parties as additional insureds. Clallam County shall give the Tribe thirty (30) calendar days' advance notice of any self-insurance or liability pool cancellation or non-renewal.

The Tribe and the County mutually agree to defend, indemnify and hold harmless the other party, its elected officials, officers, employees, and agents from and against any and all costs, claims, demands, judgments or awards of damages arising out of or in any way resulting from the negligent acts or omissions of the other party, its elected officials, officers or employees in performing this Agreement.

The Tribe will defend, indemnify and hold the County harmless in the event that a lawsuit is brought challenging the operation of one or more of the Tribal laws that the CCSO relied upon in providing services under this Agreement.

The terms of Section 38 "Governing Law, Venue and Limited Consent to Suit" shall survive the termination or expiration of this Agreement.

39. SEVERABILITY

If any provision of this Agreement shall be held invalid, the remainder of this Agreement shall not be affected thereby if such remainder would then continue to serve the purposes and objectives of both parties.

40. INTEGRATION

This Agreement, and any signed amendments, contains terms and conditions agreed upon by the parties. The parties agree that there are no other understandings, oral or otherwise, regarding the subject matter of this Agreement.

While other conditions may apply, typically a release would occur upon the MLE or federal government being completely satisfied that the item in question has reached the end of its useful life which is usually a dollar value. The relative fault of MLE on the one hand and of Subrecipient on the other hand shall be determined by reference to, among other things, the Parties' relative intent, knowledge, access to information and opportunity to correct or prevent the circumstances resulting in such expenses, judgments, fines or settlement amounts. MLE's contribution amount in any instance is capped to the same extent it would have been capped under Washington law if the State had sole liability in the proceeding.

The relative fault of Subrecipient on the one hand and of MLE on the other hand shall be determined by reference to, among other things, the Parties' relative intent, knowledge, access to information and opportunity to correct or prevent the circumstances resulting in such expenses, judgments, fines or settlement amounts. Subrecipient's contribution amount in any instance is capped to the same extent it would have been capped under Washington law if it had sole liability in the proceeding.

MLE in an ongoing basis will be monitoring the performance of the subrecipient through the subrecipient's reporting into the MLE Statement of Activity Reporting system. If in MLE's opinion, these metrics demonstrate poor stewardship the Agreement will be terminated. If feasible, MLE may work with the Subrecipient and give the Subrecipient an opportunity to improve the metrics to what MLE believes is a healthy metric.

In addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non-Federal entity under the Federal award must contain provisions covering the following, as applicable.

(A) Contracts for more than the simplified acquisition threshold currently set at \$150,000, which is the inflation adjusted amount determined by the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) as authorized by 41 U.S.C. 1908, must address administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as appropriate.

(B) All contracts in excess of \$10,000 must address termination for cause and for convenience by the non-Federal entity including the manner by which it will be effected and the basis for settlement.

(C) Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

(D) Davis-Bacon Act, as amended (40 U.S.C. 3141-3148). When required by Federal program legislation, all prime construction contracts in excess of \$2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency. The contracts must also include a provision for compliance with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each contractor or subrecipient must be prohibited

from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.

(E) Contract Work Hours and Safety Standards Act (40 U.S.C. 3701-3708). Where applicable, all contracts awarded by the non-Federal entity in excess of \$100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

(F) Rights to Inventions Made Under a Contract or Agreement. If the Federal award meets the definition of “funding agreement” under 37 CFR § 401.2 (a) and the recipient or subrecipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that “funding agreement,” the recipient or subrecipient must comply with the requirements of 37 CFR Part 401, “Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements,” and any implementing regulations issued by the awarding agency.

Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA).

(H) Debarment and Suspension (Executive Orders 12549 and 12689) - A contract award (see 2 CFR 180.220) must not be made to parties listed on the governmentwide exclusions in the System for Award Management (SAM), in accordance with the OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR part 1986 Comp., p. 189) and 12689 (3 CFR part 1989 Comp., p. 235), “Debarment and Suspension.” SAM Exclusions contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549.

Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

(J) See § 200.322 Procurement of recovered materials.

High Priority Boating Risks and Hazards

High Priority Boating Risks & Hazards	Data / Professional Judgement	Comments
2. Weather - With the shorter fishing seasons fishermen are going out in weather conditions that they normally wouldn't have done in the past.	The Strait of Juan de Fuca and the Pacific Ocean can be a rapid changing environment that can overcome inexperienced or experienced operators and/or their boats.	The one fatality and the four reportable accidents (2016) involved individuals that did not reside in Clallam County. Of the twelve non-reportable accidents, three of them involved individuals that reside in Clallam County. The boating fatality in 2018 involved a resident of Clallam County who had some passengers from out of the area. In 2019, there were two boating fatalities in Clallam County. Poor weather and high seas were a contributing factor to one of the boating fatalities. Alcohol, poor lighting, and inattention were contributing factors in the second boating fatality. In 2020, the CCSO Boating Unit investigated five boating accidents by July; one accident resulting in a fatality and another accident involving

		critical, life-threatening injuries.
There are four identified risks and hazards that are contributing factors to reported boating accidents. 1. Operator inexperience - individuals that have minimal experience operating boats or kayaks in Clallam County	Professional Judgment: Individuals that reside outside of Clallam County and or boat and fish in Clallam County are our highest risk group of boaters.	In 2017, the Clallam County Sheriff's Office responded to five boating accidents. Three of those accidents did not require a report. In 2016, The Clallam County Sheriff's Office Marine Unit responded to 16 reported boating accidents. There was one fatality, four reportable accidents, and twelve non-reportable accidents. In 2018, there was one boating fatality in the Straits of Juan De Fuca. The boating accident was investigated by a Patrol Deputy after the incident had occurred. In 2019, our Marine Unit investigated two boating fatalities in our jurisdiction and three overall boating accident reports. In 2020, the CCSO Marine Unit investigated seven boating accidents; one accident involving a fatality and another with critical, life-threatening injuries. In 2021, the CCSO Marine Unit only investigated two boating collisions with one being a presumed fatality being they are still missing at sea.
4. Equipment Failures - These accidents were the result of failures of through hull fittings, bilge pumps or loss of power	see above	Since 2015, the majority of reported accidents involved individuals that resided outside of Clallam County.
3. Navigation Errors - The majority of these are groundings by individuals that are not familiar with the area or boats that were maneuvering in	Recreational boaters that are operating small crafts in open and unprotected waters, at times are going to encounter mishaps.	In 2015, the Clallam County Marine Unit responded to fourteen reported boating accidents which included three fatalities, four reportable

confined areas.		accidents, and ten non-reportable accidents. In 2020 and 2021, the CCSO Marine Unit investigated nine boating accidents with two of those accidents resulting in fatalities.

High Priority Audiences

Description of Audience	Why is this Audience a Priority?	Comments
The boating community that is most at risk are individuals that do not reside in Clallam County and transit through the area for fishing and/or kayaking in the Strait of Juan de Fuca and the Pacific Ocean. These individuals are operating their vessels in unfamiliar, open, unprotected waters that are very susceptible to rapidly changing weather conditions, which can tax their vessels, equipment and knowledge.	Clallam County is known as a salt water fishing destination. There are also a number of boats that transit the Strait of Juan de Fuca enroute to the Pacific Ocean, Puget Sound, and the San Juan Islands or Alaska. Approximately 70% to 90% of all boater that the marine unit contacts reside outside of Clallam County. All the fatalities that reported in 2016 and 2015 involved individuals that did not reside in Clallam County.	The most effective way to contact and influence this segment of recreational boaters is with the on-water patrols, safety inspections and educational outreach events. In 2022, the CCSO Marine Unit intends to increase patrols on Lake Sutherland where there is a request for more law enforcement presence due to a wake boat dispute. The CCSO Marine Unit conducts patrols mainly in July and August on Lake Sutherland and we typically encounter kayakers and recreational boaters with various experience levels. In 2021, CCSO Marine Deputies found that several kayakers were without a sound device and were educated accordingly. The CCSO Boating Unit intends to post signs, provide educational pamphlets, and increase presence to ensure everyone is boating safely.

VESSEL REGISTRATION FEES & GRANT FUNDING

Any item not listed below must be reviewed and found acceptable by the Washington State Parks Boating Program (Boating Program) before it is considered a valid Recreational Boating Safety (RBS) expenditure.

UNIT COST APPROVAL

Items with a unit cost of \$5,000 or more under the VRF funds and \$2500 or more under the FFA grant must have the prior written approval of Washington State Parks and Recreation Commission Marine Law Enforcement (MLE) Coordinator.

COST PRORATION

If a cost benefits both your RBS program and other work of your agency, the cost should be allocated to the RBS Program based on the proportional benefit to the program. The costs may be allocated using any reasonable documented method.

ADMINISTRATIVE COSTS

Agencies that receive Vessel Registration Fees (VRF) are not allowed to charge flat administrative costs for the administration of the VRF funds as is often done with federal grants. However, agencies may charge the salaries and benefits costs of actual hours worked by staff associated with the administration of their dedicated VRF account.

Agencies that receive federal assistance grants from the Boating Program are allowed to charge indirect (administrative) costs for those funds. If the agency has a federally negotiated indirect cost rate, they are permitted to charge that against the total salaries + benefits charged to the federal assistance grants. They must first provide a copy of their current rate agreement to Parks. If not, then they may charge a *de minimus* flat rate of 10% or elect not to charge indirect at all (2 CFR 200.414(f)).

ALLOWABLE EXPENDITURES

Grant funds may be used only for activities under WAC 352-65-040, the ten elements necessary to accomplish the Recreational Boating Safety (RBS) mission. If it is unclear if an expense meets these criteria, contact State Parks at (360) 902-8845 or cheri.peel@parks.wa.gov to discuss the item before proceeding.

- **RBS EDUCATION AND INSTRUCTION**

Providing instructors for the *Adventures in Boating* course that qualifies graduates for the required mandatory boater education card. Costs may include classroom supplies, light refreshments, other goods and services necessary to promote and teach classes, and officer salaries, benefits and wages. Officer salaries will only be reimbursed for those officers who have successfully completed a State Parks *Adventures in Boating* Instructor Training class and are listed on our files.

EXHIBIT D – VESSEL REGISTRATION FEE PROGRAM GUIDANCE FOR MARINE LAW ENFORCEMENT PROGRAMS

Vessel Registration Fee Program Guidance for Marine Law Enforcement Programs

Updated January 2021

Intergovernmental Agreement

Introduction

The purpose of the Vessel Registration Fee (VRF) program is to focus local jurisdiction marine programs on injury prevention activities around recreational boating safety. These activities include enforcing RCW 79A.60: Regulation of Recreational Vessels and providing emergency response to boating accidents. Each marine patrol unit should strive to serve and protect the lives and property of Washington's recreational boaters. All VRF Funds are awarded based on the potential success and ability of the local agency to provide such service to the boating community. Recreational Boating Safety (RBS) programs are evaluated using the criteria published in this document, as well as its ability to meet the requirements and assurances of WAC 352-65: Boating Safety Program Approval.

This guidance document is intended to help local marine law enforcement programs understand the minimum qualifications and requirements to receive vessel registration fees. The document has been laid out to explain this as simply as possible. The beginning section provides a brief list of the qualifications and requirements, and the remainder of the document explains each component in more depth.

The Washington State Parks Boating Program (State Parks) has established different operational goals for agencies dependent on the population within their jurisdiction (based on 2019 census data).

- **Small Agencies** – Under 30,000 population
- **Medium Agencies** – Population between 30,000 and 100,00
- **Large Agencies** – Populations exceed 100,000.

Intergovernmental Agreement

Administrative & Financial Requirements

Annual Agreement – The A-299 Application Form

Each agency is required sign an agreement with State Parks by submitting a complete A-299 application form. The A-299 contains several informational fields that must be filled out completely to be considered and aids in the continued approval of the agency's program. These forms are due each year by October 15. Agencies must provide information on their current staff, training, an inventory of vessels, and the anticipated patrol schedule. The form also defines the specific requirements your agency is committing to in exchange for vessel registration fees. This form, and instructions on how to fill it out, is located at <http://mle.parks.wa.gov/>.

Designated Marine Lead / Conference Attendance / Surveys

Each agency has a unique and different operational environment that offer a variety of solutions to ensure Marine Law Enforcement (MLE) unit operations, enforcement, fiscal and administrative functions are conducted according to best practices. Some agencies may have a Lieutenant serving the MLE Unit Supervisor and crew member conducting vessel operations and patrols. Other agencies may have a Sergeant as a supervisor and different crew member conducting vessel operations.

Recognizing this, State Parks requires each agency to designate a "Marine Lead", which is the person responsible for the day-to-day operations of its marine program and acts as the point-of-contact with State Parks on all issues and matters related to that agency's MLE unit. While the Sheriff or Chief of Police is ultimately responsible for ensuring their agency is meeting all the program requirements, the Marine Lead is the person implementing their guidance and communicating that to other Marine Unit members, State Parks, and the public.

The Marine Lead is responsible to:

- Ensure all required reports are completed and submitted to State Parks within due date guidelines.
- Submit personnel names to attend training courses and conferences.
- Attend the annual fall conference.
- Ensure that B.O.A.T. Currency training is conducted and reported to State Parks.
- Utilize Marine SECTOR within their agency.
- Communicate with State Parks on all matters and issues which may arise around recreational boating safety and marine law enforcement.
- Respond to surveys from State Parks.

State Parks also requires the agency to designate a "Marine Supervisor", which is the person with administrative supervision of the agency's MLE program.

Intergovernmental Agreement

Reporting Recreational Boating Activities and Financial Data

SOAR – Summary of Activity Reports

A Summary of Activities Report (SOAR) form must be submitted at least quarterly to State Parks. However, agencies are invited to report activities daily, weekly, or monthly. This form, and instructions on how to fill it out, is located at <http://mle.parks.wa.gov/>.

Vessel Registration Fee Expenditure Report

This annual report form must be submitted by October 15 each year to State Parks. The form fulfills the requirements of **WAC 352-65-040(9)** which requires each participating agency to submit an annual account of program expenditures showing the amount of vessel registration fees received, spent, and remaining in their dedicated account. They must also show the amount of “local spending” on recreational boating safety activities. “Local spending” is the amount agencies spend on the RBS mission and cannot come from other grant sources. Local spending is required because **RCW 88.02.650** specifies that “[VRF] Funds may not supplant local funds used for boating safety programs”. This form, and instructions on how to fill it out, is located at <http://mle.parks.wa.gov/>.

Supporting Financial Documents

Every Vessel Registration Fee (VRF) Expenditure Report must be accompanied with the following reports:

- **Financial System Report**: A report from the agency financial system (not Excel) showing a dedicated account for the deposit of state VRF funds received from the Office of State Treasurer (Enclosure 4).
- **VRF Fund Balance Report**: A report showing the fund balance of the dedicated account (Enclosure 5). The VRF fund balance on this system-generated report should match the bottom line on the VRF report (“Total Remaining Balance of State VRF funds for Fiscal Year”).

Dedicated Account / Limitations on the Use of Funds / Accountability

Participating agencies must deposit VRF funds allocated by the state treasurer, under RCW 88.02.650, into an account dedicated solely for boating safety purposes, which include all activities or expenditures identified in this section. See the document “Allowable Costs & Expenditures for State Vessel Registration Fees & Federal Assistance Grants” for a thorough explanation of eligible expenses located at <http://mle.parks.wa.gov/>.

Vessel Registration Fees are intended to increase the education and enforcement efforts of local agencies and stimulate greater local participation in boating safety. They cannot be used to fund any activities except those that are part of the recreational boating safety mission.

Intergovernmental Agreement

Agencies may charge actual, direct administrative costs to the VRF account - such as staff hours it takes to fill out forms, or to maintain the dedicated account - but may not charge administrative fees based on an estimated percentage.

Participating agencies must maintain accurate annual records of activities and expenditures of their boating safety programs. Those records must be provided to State Parks consistent with their agreement, or upon request. The agency must also permit State Parks to audit the use of funds in accordance with generally accepted audit practices and standards.

Links to local ordinances

When the local jurisdiction adopts ordinances governing recreational boating, the ordinances must be at least as restrictive, but may be more restrictive than Washington state boating laws and regulations. Participating agencies must submit a web link to all such ordinances to State Parks using the designated field in the A-299 Form.

Operational Requirements

Officer / Deputy Qualifications / Training / Training Currency

Participating agencies must provide Officers / Deputies with law enforcement certificates from the Criminal Justice Training Commission which authorizes them to enforce all boating laws and regulations. All Officers / Deputies must maintain a current Washington State Peace Officers Certification.

Participating agencies are responsible for acquiring the required training for all RBS Officers / Deputies. Washington State Parks provides two or more Basic Marine Law Enforcement Academies each year to help agencies fulfill this requirement. These courses are provided at no charge. They are taught in the spring - usually one in Western Washington and one in Eastern Washington. Officers / Deputies may attend other basic boating safety training, if approved by State Parks. Those approved courses are the Federal Law Enforcement Training Center's (FLETC), Marine Law Enforcement Training Program (MLETP), or National Association of Boating Law Administrator's (NASBLA) Boat Crewman course (BCM).

Such training must be acquired within one year of initiating a new boating safety program and within one year for each newly assigned boating safety Officer / Deputy.

Washington State Parks' Marine Law Enforcement Training Academy is accredited through the NASBLA's Boat Operation and Training (BOAT) Program. As a term of accreditation, State Parks must ensure that all active marine Officers / Deputies maintain proficiency in basic RBS skills. This is important because these skills are perishable but critical to operate in a marine environment. All agencies must submit a BOAT Currency Requirements Report Form for all active personnel listed in the A-299. These reports are

Intergovernmental Agreement

submitted at least annually with the A-299 but may be updated throughout the year. This form, and instructions on how to fill it out, is located at <http://mle.parks.wa.gov/>.

Agencies which have not completed all currency training tasks required may submit a statement of explanation and attach it to the A-299 form. State Parks recognizes that many different circumstances could prevent training from being completed (wildfires, maintenance issues, staffing shortfalls, etc.). Each circumstance will be evaluated on its own merits.

Agencies are required to list any additional training courses their personnel have completed on the A-299 web form. This helps State Parks in maintaining an up-to-date database of marine law enforcement capabilities across the state and helps identify training subjects and courses that are needed, but not offered within the state.

Vessels and Equipment

Agencies must supply the necessary boating safety patrol equipment, including vessels capable of serving the minimum requirements outlined in this guidance. Patrol vessels must be properly marked and properly equipped as provided in chapter 88.02 RCW and chapter 352-60 WAC. Agencies are also required to provide State Parks with an inventory of all vessels along with details for how they are equipped each year by filling out the A-299 form. Information required on that form includes:

- **Vessels:** State Parks requires the following data on each vessel:
 - Vessel name
 - Manufacturer
 - Radio equipped (Y/N): Radio equipped means the vessel has an agency **radio installed or “hardwired”**. Non-radio equipped boats are vessels that do not have radios installed. Portable radios may be carried on these boats, but they would be considered non-radio equipped. Examples include personal watercraft, drift boats, Jon boats, kayaks, and inflatable rafts (motorized or non-motorized).
 - SECTOR equipped (Y/N): SECTOR equipped boats are the patrol vessels in your agency that are SECTOR equipped with a computer or tablet plus printer and scanner (**installed or “hardwired” to include portable cased units**). Non-SECTOR equipped boats are vessels that do not have a computer, tablet, printer installed or if these are not carried aboard as a cased kit.
 - Model
 - Length
 - Propulsion type
 - Horsepower
 - Year
 - Funds used to purchase the vessel (local, state, or federal)
 - Percent of time employed for the RBS mission.

Intergovernmental Agreement

NOTE: Vessels purchased with state or federal dollars must be sold at the end of their useful life, consistent with the local agency's policies and procedures. Once a vessel is sold it should be removed from the Patrol Vessel list as quickly as possible. **If the agency is selling a vessel that was purchased with federal grant dollars provided by State Parks, you must notify State Parks 60 days in advance of the sale date.**

- **Vehicles** (trucks, cars, SUVs, ATVs): The number of other patrol vehicles assigned to the marine services unit **and the percentage they are used for RBS activities.**
 - Vehicle type
 - Manufacturer
 - SECTOR/Radio equipped
 - Model
 - Year
 - Funds used for purchase.
 - Percent of time employed for the RBS mission.
- **Aircraft:** The number of aircraft in your agency **and the percentage they are used for RBS activities.**
 - Aircraft type
 - Manufacturer
 - SECTOR/Radio equipped
 - Model
 - Year
 - Funds used for purchase.
 - Percent of time employed for the RBS mission.
- **Equipment valued at \$5000.00** (i.e., engines, electronics, etc.): Agencies are required to update their inventory of durable items defined as having a cost or value of \$5000.00 or more. Only items listed under "allowable expenses" are permitted (see "Allowable Expense Guidance" document for full details).
 - Type of equipment
 - Manufacturer
 - Model
 - Year
 - Funds used for purchase (local, state, federal)

Boating Accident Reporting

Participating agencies are required to submit accident reports to State Parks in compliance with RCW 79A.60.200, RCW 79A.60.220 and WAC 352-70.

Intergovernmental Agreement

For any boating accident resulting in a death or injury requiring hospitalization, each participating agency must:

- Notify State Parks **within 48 hours** of becoming aware it.
- Fill out and submit a complete Boating Accident Investigation Report (BAIR – form number A-425) within ten days of the occurrence.
- Include the results of any other investigation conducted by the agency.
- Submit any coroner's reports concerning the death of any person resulting from the boating accident, within one week of completion.

Participating agencies must also submit a Boating Accident Report (BAR – form number A-440) within **10 days** of the occurrence to State Parks for any boating accident:

- Resulting in a death, OR
- An injury requiring hospitalization, OR
- Damage to any vessel or property of two thousand dollars or more, OR
- A vessel is a complete loss, OR
- A person disappears from the vessel under circumstances that indicate death.

Boater Assistance

The local municipality will have the ability to respond or coordinate response to boating emergencies which occur within their jurisdiction. Furthermore, agencies must document each occurrence and report it to State Parks through the Summary of Activity Report (SOAR) at least quarterly using the following definitions:

- **Search and Rescue/Recovery** – Search and rescue (SAR) is defined as a water-borne response (including aircraft) involving a person or vessel **in peril**. Agencies should only report SAR cases on the Summary of Activity Report (SOAR) that were assigned a case number by their agency or a USCG MISLE Case ID Number and an Urgent Marine Information Broadcast (UMIB) initiated by the USCG. Agencies should not report assists (defined below) as SAR cases.
- **Assist** – An "Assist" is defined as aid where there is no immediate danger to the vessel or its occupants. This includes vessels involved in boating accidents, disabled, aground, out of fuel, or otherwise unable to reach a safe mooring under their own power. Assistance may include providing a tow, jump start, re-floating, re-righting, fuel, repair, repair parts, assisting persons in the water, etc. This does NOT include the salvage of a vessel once abandoned or commercial vessels. Report the number of vessels assisted and the number of persons assisted on the SOAR report.

Boat Patrol (Boat Log Hours)

Boat patrol (Boat Log Hours) are those hours that the patrol vessel was actually on the water patrolling. Participating agencies must submit a patrol schedule (with the A-299) that demonstrates they are patrolling waters within their jurisdiction during peak recreational hours. They must also patrol a

Intergovernmental Agreement

minimum number of hours per year. See the note below.

Minimum Patrol Hour Goals Based on Agency Size

- Small agencies - 133 hours
- Medium agencies - 255 hours
- Large agencies - 436 hours

NOTE: State Parks recognizes that Washington State experiences a diverse boating season. Various areas of the state have increased boating activities due to recreation fishing, hunting and pleasure crafting. Because of its diverse landscapes and seasons, State Parks acknowledges that the traditional peak boating season remains during the time between Memorial Day and Labor Day but is not exclusive to that time frame. State Parks has collected data for patrol hours performed by all participating over a period of years and has established the average boat log hours for agencies based on jurisdiction population size according to the U.S. Census. Patrol hours can be a combination of Boat Log and Ramp-side hours.

Patrol hours is considered a critical metric. It is used by State Parks to determine if an agency is complying with the minimum requirements. Failing to achieve the minimum number of hours of patrol (based on size) could be a factor in determining ineligibility for vessel registration fees.

Example patrol schedule

Boat Patrol Schedule							
	Mon	Tue	Wed	Thur	Fri	Sat	Sun
Patrol Hours							
# of Officers / Deputies							
# of Vessels							
Patrol Season Beginning Date			Patrol Season Ending Date				

Enforcement

Participating agencies must enforce safety equipment, vessel operation, noise level, navigation, harbor improvements (as authorized and placed through local ordinances), and registration laws as specified in Title 88 RCW, and as specified in local codes or ordinances. Agencies must also document and report the numbers of warnings and citations they issue for each type of boating violation in the Summary of Activity Report – **except those issued through SECTOR.**

Intergovernmental Agreement

State Parks recommends zero tolerance policy in the enforcement of mandatory boater education card carriage, life jacket wear/carriage, boating under the influence and rules of the road violations. Officers / Deputies should strongly consider issuing citations for violations of these laws in all circumstances.

The SECTOR system should be used to issue boating citations and warnings. State Parks will no longer accept mailed-in paper inspection forms, although State Parks will continue to provide paper inspection forms to agencies for internal use.

Boating Safety Inspections

Participating agencies must complete written boating safety inspections during enforcement and informational contacts when considered safe and appropriate to document boater compliance with state boating laws. State Parks will provide boating safety inspection forms. Copies of the completed inspections must be submitted to State Parks for statistical purposes. Inspections conducted in SECTOR do not have to be reported to State Parks.

NOTE: We will not accept paper inspection forms after January 1, 2019. All inspections must be submitted using SECTOR.

State Parks has calculated suggested minimum goals for the number of boating safety inspections an agency performs in a boating season based on size.

Suggested Written Inspections – Minimum Goals

- Small, 92
- Medium, 283
- Large, 372

Boating Safety Education / Designated Education Officer / Deputy

Participating agencies must have a boating safety education and information program. At a minimum, they must designate an Officer / Deputy, trained by State Parks, to coordinate the activities of boating safety education instructors, act as liaison to boating education organizations and to coordinate:

- Boating safety presentations, which may include presentations to primary and secondary school children, boating organizations, or youth groups.
- Boating safety instruction meaning a public course of instruction using the Adventures in Boating materials from State Parks, or other state or nationally recognized curriculum approved by State Parks.
- Distribution of boating safety information, including materials provided by State Parks, to boating and outdoor recreation organizations, the boating public, public agencies, and local media.

Intergovernmental Agreement

NOTES

- Any Officers / Deputies designated as Certified Boating Education Instructors must be listed as Instructors qualified for the Adventures in Boating course by the State Parks Education and Outreach coordinator.
- State Parks considers education and outreach activities a key component of preventing boating injuries and fatalities. Classroom instruction, school presentations and participation in community events, Dealer and Rental site visits, and effective use of media are crucial to preventing boating accidents and fatalities. Agencies are not required to engage in all education and outreach activities described below but should pursue a mix of tactics appropriate for their area of operation.

Education and Outreach Tactics and Suggested Goals

- **Education Classes:** Classroom instruction of the Adventures in Boating course sanctioned by Washington State Parks that qualifies passing students to obtain a Mandatory Boater Education Card.
 - Small = 15 students, 1 Class
 - Medium = 20 students, 1 Class
 - Large = 50 students, 1 Class
- **Boating Safety Presentations to Groups:** Presentations to various groups such as yacht clubs, kayak clubs, anglers, and any groups that use boats on the water.
 - Small = 10 hours
 - Medium = 15 hours
 - Large = 25 hours
- **Boating Safety Presentations to Schools:** Presentations to local public and or private schools K-12, and colleges / universities.
 - Small = 10 hours
 - Medium = 15 hours
 - Large = 25 hours
- **Vessel Rental Site Visits:** Visits to local vessel rental sites intended to ensure employees and renters are following guidance on the Motor Vessel Rental Safety Checklist. These can also be site visits to businesses that rent out kayaks, canoes, stand-up paddleboards, or other small non-motorized craft. The intent of visits in this case is to emphasize basic safety behaviors such as encouraging renters to always wear a life jacket and encouraging boating in low hazard areas.
 - Small = 2
 - Medium = 4

Intergovernmental Agreement

4. Independent Contractor. The Contractor's services shall be furnished by the Contractor as an independent contractor and nothing herein contained shall be construed to create a relationship of employer/employee or master/servant.

The Contractor acknowledges that the entire compensation for this Agreement is specified in Attachment B and the Contractor is not entitled to any county benefits including, but not limited to: vacation pay, holiday pay, sick leave pay, medical, dental or other insurance benefits, or any other rights or privileges afforded to Clallam County employees. The County may terminate the contract in whole or in part whenever the County determines, in its sole discretion that such termination is in the interests of the County. Whenever the contract is terminated in accordance with this paragraph, the Contractor shall be entitled to payment for actual work performed for completed items of work. An equitable adjustment in the contract price for partially completed items of work will be made, but such adjustment shall not include provision for loss of anticipated profit on deleted or uncompleted work. If sufficient funds for payment under this contract are not appropriated or allocated or are withdrawn, reduced, or otherwise limited, the County may terminate this contract upon five (5) days written notice to the Contractor. No penalty or expense shall accrue to the County in the event this provision applies.

Along with the other provisions of this Agreement, this waiver is mutually negotiated by the parties to this Agreement.
15. Venue and Choice of Law. In the event that any litigation should arise concerning the construction or interpretation of any of the terms of this Agreement, the venue of such action shall be in the courts of the State of Washington in and for the County of Clallam. This Agreement shall be governed by the law of the State of Washington.
16. Withholding Payment. In the event the County Project Manager determines that the Contractor has failed to perform any obligation under this Agreement within the times set forth in this Agreement, then the County may withhold from amounts otherwise due and payable to Contractor the amount determined by the County as necessary to cure the default, until the County Project Manager determines that such failure to perform has been cured. Withholding under this clause shall not be deemed a breach entitling Contractor to termination or damages, provided that the County promptly gives notice in writing to the Contractor of the nature of the default or failure to perform, and in no case more than ten (10) days after it determines to withhold amounts otherwise due. A determination of the County Project Manager set forth in a notice to the Contractor of the action required and/or the amount required to cure any alleged failure to perform shall be deemed conclusive, except to the extent that the Contractor acts within the times and in strict accord with the provision of the Disputes clause of this Agreement. The County may act in accordance with any determination of the County Project Manager which has become conclusive under this clause, without prejudice to any other remedy under the Agreement, to take all or any of the following actions: (1) cure any failure or default, (2) to pay any amount so required to be paid and to charge the same to the account of the Contractor, (3) to set off any amount paid or incurred from amounts due or to become due the Contractor. In the event the Contractor obtains relief upon a claim under the Disputes clause, no penalty or damages shall accrue to the Contractor by reason of good faith withholding by the County under this clause.

17. Rights and Remedies. The duties and obligations imposed by this Agreement and the rights and remedies available hereunder shall be in addition to and not a limitation of any duties, obligations, rights and remedies otherwise imposed or available bylaw.
18. Contractor Commitments, Warranties and Representations. Any written commitment received from the Contractor concerning this Agreement shall be binding upon the Contractor, unless otherwise specifically provided herein with reference to this paragraph. Failure of the Contractor to fulfill such a commitment shall render the Contractor liable for damages to the County. A commitment includes, but is not limited to any representation made prior to execution of this Agreement, whether or not incorporated elsewhere herein by reference, as to performance of services or equipment, prices or options for future acquisition to remain in effect for a fixed period, or warranties.
19. Patent/Copyright Infringement. Contractor will defend, indemnify and save harmless County, its appointed and elected officers, agents and employees from and against all loss or expense, including but not limited to claims, demands, actions, judgments, settlements, attorneys' fees and costs by reason of any and all claims and demands upon the County, its elected or appointed officials or employees for damages because of the Contractor's alleged infringement on any patent or copyright. The Contractor will pay those costs and damages attributable to any such claims that are finally awarded against the County, its appointed and elected officers, agents and employees in any action. Such defense and payments are conditioned upon the following:
- (a) That Contractor shall be notified promptly in writing by County of any notice of such claim.
 - (b) Contractor shall have the right, hereunder, at its option and expense, to obtain for the County the right to continue using the information, in the event such claim of infringement, is made, provided no reduction in performance or loss results to the County.

- (b) Notice of Potential Claims. The Contractor shall not be entitled to additional compensation or to extension of time for (1) any act or failure to act by the County Project Manager or the County, or (2) the happening of any event or occurrence, unless the Contractor has given the County a written Notice of Potential Claim within ten (10) days of the commencement of the act, failure, or event giving rise to the claim, and before final payment by the County. The written Notice of

Potential Claim shall set forth the reasons for which the Contractor believes additional compensation or extension of time is due, the nature of the cost involved, and insofar as possible, the amount of the potential claim. Contractor shall keep full and complete daily records of the work performed, labor and material used, and all costs and additional time claimed to be additional.

The County, its appointed and elected officials, agents and employees, shall be specifically named as additional insureds in a policy with the same company which insures the Contractor or by endorsement to an existing policy or with a separate carrier approved pursuant to RCW Title 48, as now or hereafter amended, and the following coverages shall be provided:

- ☒ COMPREHENSIVE GENERAL LIABILITY:
- | | | |
|---------------------------------|-------------|----------------|
| Bodily injury, including death. | \$1,000,000 | per occurrence |
| Property damage | \$1,000,000 | per occurrence |

- ☐ AUTOMOBILE: coverage on owned, non-owned, rented and hired vehicles
- | | | |
|---|----|----------------|
| Bodily injury, liability, including death | \$ | per occurrence |
| Property damage liability | \$ | per occurrence |

If the Errors and Omissions or Professional Liability insurance obtained is an occurrence policy as opposed to a claims-made policy, the Extended Reporting Period Endorsement is not required.

Any such insurance carried by the Contractor shall be primary over any insurance carried by Clallam County and the Contractor shall ensure that such insurance is primary. The County shall have no obligation to report occurrences unless a claim or lawsuit is filed with it and the County has no obligation to pay any insurance premiums.

Evidence of primary insurance coverage shall be submitted to the County Project Manager within twenty (20) days of the execution of the Agreement. The Agreement shall be void ab initio if the proof of coverage is not timely supplied.

The coverage limits identified herein shall not limit the potential liability of the Contractor and the Contractor's duty to defend, indemnify and hold harmless shall apply to any liability beyond the scope of insurance coverage.

☐ 3. Liquidated Damages. For delays in timely completion of the work to be done or missed milestones of the work in progress, the Contractor shall be assessed _____ Dollars (\$) per day as liquidated damages and not as a penalty because the County finds it impractical to calculate the actual cost of delays. Liquidated damages will not be assessed for any days for which an extension of time has been granted. No deduction or payment of liquidated damages will, in any degree, release the Contractor from further obligations and liabilities to complete the entire project.

PROJECT PROPOSAL
CITY OF FORKS
WASTEWATER TREATMENT FACILITY IMPROVEMENTS

The Wastewater Treatment Facility (WWTF) for the City of Forks requires significant improvements and retrofits to prevent catastrophic failure. The improvements are required to ensure redundancy with key components, to increase capacity necessary to respond to development, and to prepare for expansion of the sewer district to businesses and neighborhoods with a high probability of failed septic systems.

The City of Forks constructed its original wastewater treatment facility and sewer collection system in 1986. Prior to construction of the WWTF, all homes and businesses in the area were served by individual septic systems. The facility was constructed with an aerated lagoon, secondary clarifier, return/waste activated sludge pumping station, effluent pumping station, and infiltration basin. A mechanical fine screen was installed in the headworks structure in 1997. In 2002, the City received an administrative order to cease land application of biosolids. The City quickly moved forward to install the FKC screw press, the first of its kind in the Nation. In doing so, the City expended \$600,000 for the project, which was nearly all of the sewer system capital reserve.

While the WWTF consistently receives Outstanding Performance Awards from the Department of Ecology (11 of the last 12 years), there is no redundancy for major components. Recent development in the sewer district (including new lodging establishments and high density low-income housing) has pushed the WWTF to capacity and potential in-fill of lots threaten to overwhelm its operation.

To address additional capacity, modifications are needed to the existing **FKC screw press**. The system modifications would include replacement of ancillary components including: sludge holding tanks, sludge feed pump, polymer system, flocculation tank, and boiler skid. The screw press would be relocated in the current building and the truck loading bay would be moved outside the building. Biosolids would be transported to the truck by conveyor. Forks City Council committed \$1,023,500 (94.5%) of the City's American Rescue Plan Act funds to completing the FKC screw press modifications.

The facility does not have redundant clarifier capacity, a requirement of Ecology's reliability standards. A new 35-foot-diameter clarifier (**Secondary Clarifier No. 2**) could be located to the south of the existing clarifier (Secondary Clarifier No. 1). Mixed liquor from the aerated lagoon could be split hydraulically in the existing splitter box, modified with weirs to provide an even distribution of flow to each clarifier when both are in service.

The **aerated lagoon** installed in 1986 is nearing the end of its anticipated life span and needs to be replaced. The lagoon is currently single lined. New Ecology standards require all wastewater impoundments (ponds/lagoons) to be double lined with leak detection or single lined with

groundwater monitoring. Both the aerator and mixer are original equipment and beyond the 20 to 25 year life span. In addition, there is no redundancy in case of failure.

A permanent on-site **generator** should be installed to provide power to all electrical systems in the plant during outages. A preliminary load study of the plant with recommended improvements results in the need for a 250-kW generator. The generator would be housed outside in a sound attenuating enclosure and include an automatic transfer switch.

Miscellaneous improvements needed at the WWTF include:

- Air-gap to provide physical separation of the City's potable water system and non-potable water system which is required by the Department of Health. The air-gap system would consist of a surge tank, inlet valve, centrifugal water pumps, and pneumatic pressure tank.
- Renovations to the laboratory and maintenance building (flooring and HVAC)
- Redundant return-activated sludge pump station
- Replacement pumps, retrieval system, and control panel for the Mill Creek pump station
- Submersible centrifugal pumps for in-plant pump station

Project Cost Breakdown:

Modifications to FKC screw press	\$ 919,500
Construction of secondary clarifier No. 2	\$ 914,500
Improvements to aerated lagoon	\$ 519,600
Installation of emergency generator	\$ 310,600
Miscellaneous improvements including: air-gap, RAS pump station, Mill Creek pump station	<u>\$ 425,900</u>
Engineer's estimate	\$3,090,100
Inflation from original estimates	<u>\$ 309,100</u>
Total project cost	<u>\$3,399,110</u>

The City has committed \$1,023,500 of its ARPA funds to the project, leaving a request of \$2,375,610 from the Opportunity Fund. This project is grouped into components. Each component may be completed individually or combined as one project.

Various funding sources have been explored such as Public Works Trust Fund, CERB, USDA Rural Development, etc. Most, if not all of these sources require a loan component that could not be serviced by user fees, even with a 5.5% increase set for January 1, 2022. (Rates automatically increase each year by CPI-U.) The City is not eligible for emergency funding since the WWTF has not failed and continues to receive DOE Outstanding Performance Awards.

The City of Forks Comprehensive Plan incorporates and references the Capital Improvement Plan as the guide in implementing the City's capital projects. The CIP lists these improvements to the WWTF as capital projects for the sewer system.

PROJECTED SOURCES AND COMMITTED USES—2021-2049 (WITH ESTIMATED ADDITIONAL MAXIMUM ANNUAL DEBT SERVICE/GRANT CAPACITY)

NOTE: The projection below assumes the Opportunity Fund tax revenue sunsets in July 2032 and projection extends to 2049 to coincide with the maturity of the County's \$10 million Carlsborg Loan which matures in June 2048. Other assumptions include tax revenue annual increase of +20% in 2021 reflecting the strong retail sales recovery seen following the COVID recession, returning to growth of 4.5% after 2022 (historically has averaged 4.5%). Interest rate on funds earned of .75% in 2021 and 2022 due to COVID impact on interest rates, returning to 1.6% thereafter; and indirects grow at 2%. Current funding commitments to various EDC agencies assumed full to 2021 original budget, but 2021 has been adjusted for EDC to reflect \$320k of additional funding in support of \$20k of 2020 costs that were not billed until 2021 and \$300k of admin costs related to the ARPA Lifeboat Grant Program. Reflects the resulting estimated remaining funds in the Opportunity Fund to address all current and future commitments. The model below also estimates the maximum additional annual commitments (whether debt service or other grant commitments) that the Opportunity Fund has the estimated capacity to fund and still have sufficient cash to fully fund all current and projected commitments.

CLALLAM COUNTY
OPPORTUNITY FUND

PROJECTED SOURCES AND COMMITTED USES—2021-2049 (INCLUDING PROFORMA EFFECT OF \$2.376M FORKS SEWER CONTRIBUTION, WITH ESTIMATED REMAINING MAXIMUM ANNUAL DEBT SERVICE/GRANT CAPACITY)

*NOTE: The projection below assumes the Opportunity Fund tax revenue sunset in July 2032 and projection extends to 2049 to coincide with the maturity of the County's \$10 million Carlsborg Loan which matures in June 2048. Other assumptions include tax revenue annual increase of +0.5% in 2021 reflecting the strong retail sales recovery from following the COVID recession, returning to growth of +0.5% after 2022 (historically has averaged 4-5%); interest rate on funds earned at 75% in 2021 and 2022 due to COVID impact on interest rates, returning to 1.8% thereafter and indirect growth at 3%. Current funding commitments to various EDC agencies assumed (ref to 2021 original budget) but 2021 has been adjusted for EDC to reflect \$250k of additional funding in support of \$20k of 2020 costs that were not billed until 2021 and \$230k of admin costs related to the ARPA Lifesaver Grant Program. Reflects the resulting estimated remaining funds in the Opportunity Fund to service all charges and future commitments. Model below also estimates the maximum additional annual commitments (whether debt service or other grant commitments) that the Opportunity Fund has the estimated capacity to fund and still have sufficient cash to fully fund all current and projected commitments.

JANUARY 2022 REVIEW OF FINANCIAL RESULTS AND REVISED PROJECTION FOR 2022—EXECUTIVE SUMMARY:

January 2022 YTD General Fund Results

The January YTD General Fund Financial Review compared to the same period in 2021 is attached along with comparison to the original budget for 2022 and a revised annual projection for 2022.

YTD January 2022 revenue totaled \$2,532k as compared to \$2,661k in 2021, representing a decrease of \$129k. Excluding YTD COVID related reimbursements of \$0k in 2022 and \$112k in 2021, YTD non-COVID revenues decreased of \$17k or -0.7% from prior year. YTD expenditures in January were \$2,963k (which includes \$7k of COVID-related costs) as compared to \$2,946k in 2021 (which includes \$16k of COVID-related costs) for an overall increase of \$17k, and a non-COVID increase of \$26k. Excluding COVID-related revenues/expenditures, the General Fund generated an operating deficit of (\$424k), as compared to a deficit of (\$381k) in January 2021, an increase of \$43k. Including COVID-related activity, the General Fund generated an operating deficit for YTD January 2022 of (\$431k). The General Fund finished January with an ending Fund Balance reserve of \$15,097k, or \$859k higher than prior year.

Please refer to the attached schedule that provides further detail of the major factors that make up these changes and performance to budget.

REVENUES

Revenues overall (excluding COVID reimbursements) were at 5.4% of the 2022 budget for January YTD, slightly trailing last year's 6.3%. Growth relative to budget as compared to last year was seen

in the areas of Taxes, License & Permits, and Timber Revenues, while decreases were seen in Intergovernmental, Charges for Goods & Services, Fines & Penalties, Misc Revenue and Non Revenue. Taxes YTD were pacing well ahead of budget at 4.8% as compared to last year's 4.1%, driven mainly by stronger than expected sales taxes which were up 47% YTD compared to this time last year, of which 33.3% of this growth was driven by the audit-related collection of 2021 sales taxes of over \$200k in the month of January, with the remaining 13.7% in growth being driven by the continued strong retail sales activity generated in the County. Licensing & Permits also were up for January YTD (at 7.3% of budget vs 6.7% in prior year), mainly as a result of continued growth in building permit revenue which were up 9.1% to prior year. YTD Intergovernmental Revenue stood at 6.6% of budget (trailing last year's 10.9%) mainly due to timing differences of grant reimbursements in Indigent Defense and other areas that should correct as the year progresses.

Charges for Goods & Services stood at 5.9% of budget (as compared to 8.1%) mainly due to timing of receipt of Treasurer storm water fees and WSU Environmental Services fees which should self-correct as the year transpires, and a 53.8% decline in building plan revenues was observed in January. Fines & Penalties also were pacing behind budget compared to prior year (6.2% vs 8.2%) due to a 41% decline in District Court 1 infraction revenue to last year. Misc Revenue is pacing slightly behind last year relative to budget vs last year (14.7% vs 15.4%) due mainly to the continued drop in investment interest income since in the latter half of 2021 as the remainder of the County's investment portfolio matured and were reinvested at lower interest rates, as offset by a 12.7% increase in camping fee reservations YTD relative to last year. Non Revenues (consisting of sales, use, and lodging tax collected by Parks, Fair & Facilities for the state) are also down considerably to last year as a result in a change in the accounting that occurred at the end of 2021 but which was not reflected in the 2022 budget whereby these funds are no longer accounted for in the General Fund. No COVID/FEMA reimbursement revenue has yet been received thus far in 2022, as compared to \$112k rec'd at this time last year.

EXPENDITURES

Expenditures (excluding COVID-related) were pacing at 5.7% of budget through the end of January, which is below last year's 6.6%. Most expenditure categories were at or below last year as a % of the annual budget, with the exception of Capital (due principally to timing). The year-over-year \$26k increase in non-COVID expenditures was mainly due to increases in (1) Payroll (up \$59k or 3.3%) driven by the step/COLA increases, additional pay resulting from last year's renewal of collective bargaining agreements, and staffing changes, (2) Services (up \$62k or 21.5%) principally driven by higher professional services costs for Prosecuting Attorney coroner services and Superior Court adult felony costs due to the Bauer trial, and (3) Capital (up \$19k due to timing), while offset by a \$110k in lower Transfers Out relating to higher funding provided to the Bullman Beach fund and Lower Dungeness Floodplain project this time last year.

2022 PROJECTION—GENERAL FUND

Given the early stage of the year we are in, significant changes made to the forecast from the 2022 budget are limited at this time to those known trends/issues identified during the budget process, and based on preliminary results seen thus far in 2022.

PROJECTED REVENUES--Overall revenues are now projected to total \$47,050k, an increase of \$238k over the 2022 budget. This is reflective of several factors.

First, Tax revenue is now projected to outperform budget by \$317k. This is mainly due to the strong YTD sales tax growth realized in January of 47%, which as noted earlier was mainly driven by an over \$200k of 2021 sales tax remitted to the County following the audit of a County-based business, as well as a 13.7% year-over-year adjusted growth rate in January, eclipsing the 5% growth rate assumed in the 2022 budget. Sales tax forecast assumptions for the balance of 2022 were held at the 5% budgeted growth rate, and will continue to be revisited as more data points and trends become available. All other non-sales tax revenues are forecasted consistent with the 2022 budget at this time.

The only other significant change to the 2022 revenue forecast for the General Fund is a \$75k decrease in Non Revenues to reflect a change in the accounting of sales, use and lodging tax funds collected by the Parks, Fair and Facilities department from the operation of the County's campgrounds, which the collection and remittance of to the State are required to be accounted in a fiduciary fund outside of the General Fund (note that this revenue reduction is offset by a similar decrease in forecasted Services expenditures, making this a cash flow neutral change to the General Fund).

All other revenue categories remain currently forecasted at or near their 2022 budgeted amounts at this early stage of the year.

PROJECTED EXPENDITURES-- General fund expenditures (including COVID/FEMA-related costs) are projected to total \$49,909k, or \$1,795k lower than budget.

Of this projected underspend to budget, approximately \$1,678k is related to projected underspend in the area of non-COVID payroll and benefits based on the multi-year trend where due to turnover, retirements, delays in filling open positions, and other dark-time, we have historically underspent our budgeted payroll costs by 4-5% annually. This amount of projected savings in payroll and benefits is relatively in-line with the \$1,732k placeholder estimated savings discussed during the presentation of our 2022 budget.

Based on trends, non-COVID Supplies are projected to come in \$24k below budget, while Services are projected to come in \$100k below budget. The underspend in Services is partly due to the \$75k decrease in sales, use and lodging tax costs due to the change in accounting for such costs discussed earlier where such payments to the State are no longer paid from the General Fund.

All other cost categories are forecasted at or near their 2022 budget amounts at this time.

NET DEFICIT OF REVENUES TO EXPENDITURES--Based on these revenue and expenditure assumptions, I am projecting a General Fund operating deficit (excluding COVID related revenues/costs) of (\$3,152k) for 2022, which is \$2,040k better than our 2022 budgeted deficit of (\$5,192k). When including a COVID-related surplus of \$293k, our overall General Fund deficit for 2021 is expected to total \$2,859k, as compared to a budgeted deficit of (\$4,892k).

PROJECTED ENDING FUND BALANCE--\$12,670k, or 25.4% of forecasted non-COVID expenditures, as compared to \$10,636k budgeted based on final 2021 results.

Clallam County General Fund Results
January 2022

REVENUE--January 2022 YTD Revenue totaled \$2,532k as compared to \$2,661k in 2021, representing a decrease of \$129k (of which \$112k was due to lower FEMA COVID reimbursements). January 2022 YTD Revenues came in at 5.4% of our annual revenue budget, trailing slightly behind 6.5% in 2021. If one excludes CARES/FEMA reimbursements, revenue was at 5.4% of budget (vs 6.3% in 2021), and decreased \$17k or 0.7% from prior year. Growth was seen in Taxes, License & Permits, and Timber Revenues, while decreases were seen in Intergovernmental, Charges for Goods & Services, Fines & Penalties, Misc Revenue and Non Revenue. Taxes YTD thru January were pacing well ahead of budget at 4.8% as compared to last year's 4.1%, driven mainly by strong sales taxes which were up 47% YTD compared to last year, of which 33.3% of this growth was driven by the audit-related collection of 2021 sales taxes of over \$200k in the month of January, with the remaining 13.7% growth in sales taxes driven by the continued strong retail sales activity generated in the County. Licensing & Permits also were up for January YTD (at 7.3% of budget vs 6.7% in prior year), mainly as a result of continued growth in building permit revenue which are up 9.1% to prior year. YTD Intergovernmental Revenue stood at 6.6% of budget (vs. 10.9% in 2021) mainly due to timing differences of grant reimbursements in Indigent Defense and other areas that should correct as the year progresses. Charges for Goods & Services stood at 5.9% of budget (as compared to 8.1%) mainly due to timing of receipt of Treasurer stormwater fees and WSU Environmental Services fees, and a 53.8% decline in building plan revenues observed in January. Fines & Penalties also were pacing behind budget compared to prior year (6.2% vs 8.2%) due to 41% decline in District Court 1 infraction revenue to last year. Misc Revenue is pacing slightly behind last year relative to budget vs last year (14.7% vs 15.4%) due mainly to the continued drop in investment interest income since in the latter half of 2021, as offset by a 12.7% increase in camping fee reservations YTD relative last year. Non Revenues, consisting of sales, use, and lodging tax collected by Parks, Fair & Facilities for the state, is also down considerably to last year as a result in a change in the accounting for these funds outside of the General Fund that occurred at the end of 2021 but which was not reflected in the 2022 budget. No COVID/FEMA reimbursement revenue has been received thus far in 2022, as compared to \$112k rec'd at this time last year), the receipt of which is expected to occur later in 2022.

EXPENDITURES--for YTD January 2022 totaled \$2,963k (including \$7k of COVID related costs) as compared to \$2,946k (including \$16k of COVID costs) in 2021 for an increase of \$17k (increase of \$26k or 0.9% excluding COVID costs). Expenditures (excluding COVID) for January 2022 YTD came in at 5.7% of our annual budget, pacing below last year's of 6.6%. All expenditure categories are pacing or below their pacings to budget in comparison with prior year, with the exception of Capital Outlays due to timing of capital purchases. The year-over-year \$26k increase in non-COVID expenditures was mainly due to increases in (1) Payroll (up \$59k or 3.3%) driven by the step/COLA increases, additional pay resulting from last year's renewal of County collective bargaining agreements, and staffing changes, (2) Services (up \$62k or 21.5%) principally driven by higher professional services costs for Prosecuting Attorney coroner services and Superior Court adult felony costs due to the Bauer trial, and (3) Capital (up \$19k due to timing), while offset by a \$110k in lower Transfers Out relating to higher funding provided to the Bullman Beach and Lower Dungeness Floodplain projects last year.

OPERATING SURPLUS/(DEFICIT) AND ENDING RESERVICES--For January 2022 YTD, the General Fund generated an operating deficit between revenue and expenditures (excluding COVID/CAREs) of (\$424k), a \$43k increase from last year's operating deficit. After including COVID-related net revenue to expenditure deficit of YTD of (\$7k), the General Fund generated an operating deficit of (\$431k) for January 2022 YTD. The General Fund finished January 2022 with an ending fund balance reserve of \$15,097k.

2022 FORECAST--Turning to the forecast, given the early stage of the year we are in, significant changes to the forecast are limited at this time outside of known trends identified during the 2022 budget process. That being said, General Fund total revenues are projected to total \$47,050k, an increase of \$238k over the 2022 budget. The main contributors include higher projected Tax revenue of \$317k due mainly to the much stronger than budgeted sales tax revenues observed in January due largely to audit-related collection of 2021 sales tax from a large retailer, and higher than expected overall sales tax growth of 13.7% YTD as compared to 5% growth budgeted. Sales tax growth assumptions for the remainder of the 2022 forecast reflect the 5% growth assumed in the 2022 budget, and will be re-visited once more data points and trends become available as the year unfolds. The only other significant change to the 2022 forecast is a \$75k decrease in Non Revenues to reflect a change in the accounting of sales, use and lodging tax funds collected by the Parks, Fair and Facilities department from the operation of the County's campgrounds, which the collection and remittance of to the State are required to be accounted in a fiduciary fund outside of the General Fund (note that this revenue reduction is offset by a similar decrease in forecasted Services expenditures, making this a cash flow neutral change to the General Fund). 2022 Expenditures are projected to total \$49,909k, underspending to budget by \$1,795k driven by savings forecasted primarily in Payroll, Benefits, Supplies, and Services. Payroll and Benefits costs are expected to come in approx \$1,678k below budget, mainly due to historic underspend to our personnel budgets due to unbudgeted darktime in our staffing levels as discussed previously. Supplies and Services are projected to come in \$24k and \$100k below budget, respectively, based on early trend savings and the previously mentioned change in accounting of sales, use and lodging tax payments made to the State where such payments are no longer paid from the General Fund. The General Fund is now projected to end 2022 with a net operating deficit of (\$2,859k) as compared to (\$4,892k) budgeted, leaving an expected ending reserve balance for the General Fund of \$12,670k, which is \$2,033 higher than originally budgeted.

RE: Joint Letter of Support for the US Highway 101 East Corridor Improvement Project with On / Off Ramps and the Frontage Road from Sequim City Council, Board of Clallam County Commissioners and Jamestown S'Klallam Tribe

Representative Chapman, Representative Tharinger & Senator Van De Wege:

On behalf of the City of Sequim, the Board of County Commissioners (BOCC) and the Jamestown S'Klallam Tribe we would like to show our strong support for the US Highway 101 East Corridor Improvement Project with on / off ramps and the frontage road serving Palo Alto Road and Happy Valley Road. We believe that a frontage road would eliminate the unsafe intersections, maintain a smooth flow of traffic on Highway 101, and maximize entry and exit at a proper, safe, completed interchange.

The State awarded the preliminary engineering for the Simdars Road interchange to US Highway 101. It also included constructing a frontage road connecting Palo Alto and Happy Valley roads to the Simdars interchange and eliminating their direct connection to Highway 101. One of Washington State Department of Transportation's (WSDOT) Proposals calls for traffic circles at the

intersections of Palo Alto Road and another at Happy Valley Road. The City, BOCC and the Jamestown S’Klallam Tribe are concerned about traffic volume, access to commerce on the Olympic Peninsula, creating secondary access, and the potential impact during peak tourism times like Lavender Festival weekend. Highway 101 is the only highway that serves the greater Olympic Peninsula area and direct flow of traffic is of utmost importance. It is critical that WSDOT properly analyze the impacts traffic circles would have on these items.

Sequim City Council, the BOCC and the Jamestown S’Klallam Tribe appreciate WSDOT's outreach to the local community as safety improvements are being considered. Please accept this letter of support for the US Highway 101 East Corridor Improvement Project with on / off ramps and the frontage road. It is our sincere hope that the completion of this project is given the highest, and first priority.

Respectfully,

Tom Ferrell
