Executive summary:

The Board of County Commissioners extended their public hearing held on June 15, 2021 regarding the proposed changes necessary for the Department of Ecology to approve Clallam County's Shoreline Master Program. Pursuant to RCW90.58.090(2)(e) the County must either agree to the proposed changes or submit alternatives for Ecology to review. The Board has asked the Department of Ecology to be available at a work session to answer questions related to the proposed changes, public participation, and the public's response. The Department of Ecology has agreed to attend the meeting to answer questions from the Commissioners.

Ecology provided the following regarding their process for public participation during review of the County's Approved SMP:

- An Ecology-sponsored public hearing is optional per WAC 173-26-120(4) – we did extend the typical 30-day state comment period to 6 weeks to ensure adequate time for public comment. When we were deciding about a hearing, we considered the County's extensive public engagement during the local process that went above & beyond the minimum requirement, and felt that local issues of concern had been well-addressed by the locally-approved SMP. We discussed this with County staff whom agreed, and supported our proposal to skip the hearing and extend the comment period.
- We broadly noticed the state comment period, including a PDN legal ad, our webpage, our own list of agencies, stakeholders & four local Tribes, and the County's email list of some 700 interested parties, plus additional hard-copy mailings – only 13 comment submittals were received.
- We conducted our statewide public process and issued our Conditional Approval decision. After that, any further public involvement is at the discretion of local government as they consider how to respond to our decision and any final changes. There is no requirement for additional public involvement during this final negotiation between the joint authorities. As

part of our standard practice, we were in discussion with County staff throughout the state review & agency decision process to ensure 'no surprises' on the pending required & recommended changes. We understand DCD has had several staff turn-overs since the 2018 submittal.

- While the County webpage and BoCC meeting packet refers to our Required and Recommended Changes as 'Ecology comments', it's important to note that those Attachment B and C changes are stipulations of our legally binding Conditional Approval decision issued under our statutory authority for SMP final approval. There is no option to retract or change our Director's decision. At this point the County can accept or propose alternatives to the Required changes, and decide about making the Recommended changes.

**Re: Clallam County Shoreline Master Program Comprehensive Update –
Conditional Approval**

Dear Commissioner Ozias:

I would like to take this opportunity to commend Clallam County (County) for its efforts in developing the proposed comprehensive Shoreline Master Program (SMP) update. It is obvious that a significant effort was invested in this update and the SMP will provide a framework to guide development and environmental protection along the County's shorelines into the future.

As we have already discussed with your staff, the Washington State Department of Ecology (Ecology) has identified specific changes necessary to make the proposal approvable. These required changes are detailed in Attachment B. Additional recommended changes are proposed in Attachment C. The findings and conclusions that support Ecology's decision are contained in Attachment A.

Pursuant to RCW 90.58.090(2)(e), at this point, the County may:

- Agree to the proposed changes, or
- Submit an alternative proposal. Ecology will then review the alternative(s) submitted for consistency with the purpose and intent of the changes originally developed by Ecology and with the Shoreline Management Act.

Final Ecology approval will occur when the County and Ecology agree on language that meets statutory and guidelines requirements.

Please provide your response within 30 days to the Director at laura.watson@ecy.wa.gov.

Ecology appreciates the dedicated work that the Board of County Commissioners, the Planning Commission, the No Net Loss Work Group, SMP Update Committee, County staff (past & present) and the community have put into the Shoreline Master Program Comprehensive Update.

Executive summary:

District Court I Presiding Judge Dave Neupert and Prosecuting Attorney Mark Nichols will present an overview of findings relative to a proposal to establish a mental health court in Clallam County. They will also make a joint request for the BoCC to: 1) authorize the creation of a Mental Health Court Coordinator position, 2) authorize the creation of an Administrative Support position to work alongside the Coordinator position, and 3) appropriate monies derived from the Hargrove tax to fund the startup and operation of this court for a three year + period.

Budgetary impact: (Is there a monetary impact? If so, are funds for this already allocated or is a budget change necessary? If this is a contract and a budget change is necessary, the budget change form must be submitted with the item at work session and for the regular agenda) **If a budget action is required, has it been submitted and a copy attached?** ☐

The County's Chief Financial Officer has opined that "based on the projected amount of Hargrove funds in reserve, together with the budgeted spending commitments currently being funded through Hargrove, that there is more than sufficient reserves available to fund this without compromising funding for existing fund recipients based on what is currently assumed in the CD/MH fund. . . . While certainly there may be other CD/MH funding requests that HHS may be contemplating in the future that I'm not aware of, based on what we are currently committed to fund this year, I see no risk of this fund being unable to fund these existing commitments as well as this proposed funding for the MHC for the next 3 years based on the reserves projected."

Recommended action: (Does the Board need to act? If so, what is the department's recommendation?)

We are requesting that the BoCC: 1) take action as necessary to facilitate the appropriation of funds necessary to facilitate the operation of a mental health court, and 2) direct the Human Resources

MENTAL HEALTH COURT

What Is Mental Health Court?

- Mental health courts are specialty courts that were established to improve the response to individuals with serious mental illnesses who have come into contact with the criminal justice system.
- Eligibility requirements:
 - Category of crime; and
 - Nature of diagnoses

Why Have Mental Health Court?

- While there are many reasons, the most compelling is that the traditional criminal justice system's approach to defendants with mental health disorders is proving to be ineffective.
- Why not try something new that has worked in other jurisdictions?

Who Would Oversee the Court?

- Clallam County District Court I.
- The judiciary has inherent authority under Article IV, section 1 of the state Constitution to establish therapeutic courts.
- In addition, the legislature has expressly authorized therapeutic courts by and through RCW 2.30.030.

Where Will The Court Operate?

- Within the Clallam County Courthouse in Port Angeles, Washington.
- Participants would be required to obtain a mental health evaluation and follow treatment recommendations.

When Will the Court Commence Operations?

- We are planning on having the court commence operations by not later than the end of 2021.

How Will the Court Be Funded?

- We are proposing that the court be funded through unspent reserve funds from an existing sales and use tax for chemical dependency or mental health treatment services or therapeutic courts. RCW 82.14.460.
- AKA, the “Hargrove Fund.”

The Hargrove Fund

- In 2005, Washington State approved legislation allowing counties to raise their local sales tax by one-tenth of one percent to augment state funding of substance use disorder and mental health programs and services.
- In March, 2006, the Clallam County Board of Commissioners approved an ordinance authorizing a 1/10th of one percent sales and use tax for substance use, mental health, and therapeutic court programs.

The Hargrove Fund

- The goal of this tax is to prevent and reduce the impacts of disabling substance use and mental health disorders by creating and investing in effective services and programs.
- Hargrove Fund monies must be used solely for the purpose of providing for the operation or delivery of substance use or mental health treatment programs and services and for the operation or delivery of therapeutic court programs and services.

Existing Mental Health Courts

- The following is a list of counties that have Mental Health Courts:
 - Benton, Clark, Cowlitz, Jefferson, King, Kitsap, Lewis, Mason, Pacific, Pierce, Snohomish, Spokane, Thurston, Whatcom and Yakima

Community Support

Mental Health Court is supported by a variety of stakeholders including, but not limited to:

- Clallam County's Law and Justice Council
- Peninsula Behavioral Health
- West End Outreach Services
- Olympic Medical Center
- Private sector treatment providers
- Local governments
- Olympic Peninsula Chapter – Military Officers Association of America (MOAA)

Next Steps

- Obtain funding solution – Clallam County Board of County Commissioners
- Hire a Mental Health Court Coordinator and Administrative Support – District Court I
- Select a court model - Judge Neupert with input from stakeholders
- Develop program policies, procedures, etc. – Judge Neupert and Coordinator with input from stakeholders
- Implement the court – Judge Neupert

Questions?

Mental Health Court – Questions and Answers

- 1) **What is mental health court?** *Mental health courts are specialty courts that were established to improve the response to individuals with serious mental illnesses who have come into contact with the criminal justice system.*
- 2) **Is there any legal authority that allows for the operation of a mental health court?** *Yes. The judiciary has inherent authority under Article IV, section 1 of the state Constitution to establish therapeutic courts. In addition, the legislature has expressly authorized therapeutic courts by and through RCW 2.30.030, "Therapeutic courts authorized—Establishment of processes—Determination of eligibility—Persons not eligible—Use of best practices—Dependency matters—Foreign law limitations."*
- 3) **Does Clallam County have other therapeutic courts?** *Yes. Clallam County currently has three therapeutic courts. They include adult drug court, juvenile drug court and the Living in Families Together (LIFT) Court.*
- 4) **Is there broad support in the community for the establishment of a mental health court (MHC)?** *Yes. In 2020, the entirety of Clallam County's Law and Justice Council (which is comprised of judicial representatives from both the superior and district courts, the county prosecutor, the public defender, local law enforcement leadership, representatives from local governments and others) voted in favor of mental health court. Both Clallam County hospitals and mental health centers have expressed support as well. In addition, the Olympic Peninsula Chapter of the Military Officers Association of America (MOAA) has voiced its support for the establishment of a mental health court.*
- 5) **Does Clallam County already have a mental health court?** *No. Clallam County has never had a mental health court. The Washington State Administrative Office of the Courts' website (https://www.courts.wa.gov/court_dir/?fa=court_dir.psc&tab=5) contains a listing of the jurisdictions that operate mental health courts.*
- 6) **Are efforts currently being taken within the court system to address mental health issues?** *Yes. Clallam County's court system has, for years, made efforts to address mental health issues. These efforts include, but are not limited to, ordering mental health evaluations for eligible defendants, conducting a twice monthly review calendar in superior court for individuals whose sentence involves the requirement to maintain compliance with mental health services, reviewing the status of individuals participating in the Living in Families Together (LIFT) Court and/or child welfare system who present with mental health challenges, and monitoring mental health concerns for participants of the adult and juvenile drug court programs.*

- 7) **What is the goal in addressing mental health challenges in the community?** *Communities prosper when the mental health needs of community members are met. Unaddressed mental health problems can have a negative influence on homelessness, poverty, employment, safety, and the local economy. They may impact the productivity of local businesses and health care costs, impede the ability of children and youth to succeed in school, and lead to family and community disruption. By addressing mental health challenges within the community, many of these outcomes can be halted and even reversed leading to more prosperous communities.*
- 8) **How would the mental health court achieve that goal?** *The goal of mental health court is to engage, support and facilitate the sustained stability of individuals with mental health disorders within the criminal justice system, while reducing recidivism and increasing community safety. Using a wraparound approach, the mental health court team will meet regularly with the offender to assess needs, provide positive feedback and problem solving, and require accountability for non-compliance with treatment and probation conditions.*
- 9) **Is a mental health court, beyond what currently exists, the most effective way to achieve that goal?** *It is important to note at the outset that Clallam County has never had a mental health court. However 15 other counties across Washington – including neighboring Jefferson and Kitsap Counties – do offer mental health courts. The consistent response from these jurisdictions is that mental health court works and has been more effective than the traditional criminal court at addressing individuals with mental health disorders within the criminal justice system. Numerous local criminal justice stakeholders including Clallam County's District Court judges, the County Prosecuting Attorney, the Clallam Public Defender, the County Sheriff, and the Police Chiefs for the Cities of Port Angeles and Sequim agree that the current system is largely ineffective at addressing individuals with mental health disorders within the criminal justice system. For this reason, these individuals support the establishment of a mental health court in Clallam County believing that it is time for Clallam County to implement a new approach to mental illness within the criminal justice system.*
- 10) **What would be the cost of a mental health court?** *While the exact cost for this court has yet to be fully determined, it is presently estimated that the annual operating cost will be approximately \$ 150,000.00 to \$250,000.00/year. This estimate includes the cost for a full time equivalent Mental Health Court Coordinator, a part time Administrative Assistant and startup costs to establish a workspace and basic supplies for these positions. It also presumes additional costs of up to \$50,000.00/year.*

Notably, the District Court I judge and Prosecuting Attorney have agreed to absorb the workload associated with this court into their existing operations. This is based on recognition of the fact that the new court will not result in the creation of new or additional cases within the criminal justice system. Instead defendants charged with eligible offenses within the criminal courts will

be able to petition in to mental health court. Provided the defendant is accepted into the program, their case(s) will be transferred from one court into the other.

An equally important question is what would be the cost of not implementing Mental Health Court? *The answer to this question remains unknown as an accurate determination of cost would require a forensic accounting of the criminal justice system's average system response cost/defendant/case type. Unfortunately, this type of accounting has never been performed in Clallam County. Moreover and based on outreach it does not appear that this accounting been performed in any of the other 38 Washington State county governments. Even without a forensic accounting, however, it is clear that the average system response cost - defined as those costs incurred by the system from the time a citizen dials 911 for help through the conclusion of the system's response - are likely considerably higher than many people realize. This is especially the case when viewed in relation to repeat offenders who consume a disproportionate amount of public resource. It is anticipated that mental health court will, through a reduction in recidivism for mentally ill offenders, result in a reduction in these system response costs and thus a savings over the course of time.*

11) What would be the net budgetary effect to the county (i.e. would it save money in other areas in a way similar to the drug courts)? *Proponents of mental health court have encouraged the Clallam County Board of County Commissioners to fund the program by drawing down on unspent surplus and/or reserve dollars that have accumulated within the Hargrove tax line within Clallam County government.¹ Given that the focus is on use of surplus and/or reserves, a decision to fund mental health court from this budget line will not be at the expense of other programs that operate based on disbursements from this fund. Nor will it be at the expense of any other county programs that are funded through other sources such as the County's General Fund. As explained above it is anticipated that mental health court will, through a reduction in recidivism for mentally ill offenders, result in a reduction in system response costs and thus a savings over the course of time.*

12) How would the costs of a mental health court be funded? *Proponents of mental health court believe that the Hargrove tax line within county government is the most appropriate funding source. That said, we have researched other possible funding sources. For example, we inquired with the State regarding whether there are any Trueblood settlement monies available for this purpose. We were told by state representatives that "Clallam County is not eligible to receive Trueblood settlement funding until 2025 or 2026." We also outreached to 24th Legislative*

¹ In 2005, Washington State approved legislation allowing counties to raise their local sales tax by one-tenth of one percent to augment state funding of substance use disorder and mental health programs and services. See RCW 82.14.460. In March, 2006, the Clallam County Board of Commissioners approved an ordinance authorizing a 1/10th of one percent sales and use tax (dubbed the "Hargrove tax") for substance use, mental health, and therapeutic court programs. The goal of this tax is to prevent and reduce the impacts of disabling substance use and mental health disorders by creating and investing in effective services and programs. Hargrove tax monies must be used solely for the purpose of providing for the operation or delivery of substance use or mental health treatment programs and services and for the operation or delivery of therapeutic court programs and services.

District Representatives Mike Chapman and Steve Tharinger as well as Senator Kevin Van De Wege to inquire about whether they knew of any funds that could be used to support Mental Health Court. Of those who responded, none were aware of any funding that could be made available for this purpose. Finally, we applied for a grant, the proceeds of which could have been used for the establishment a Mental Health Court. Unfortunately, we anticipate that our grant application will denied, in part because we already have an alternative funding source available at the local level (i.e. the Hargrove tax).

- 13) If the 1/10th of 1% tax was used as a funding source, what existing use of those funds would no longer be possible?** *Proponents of mental health court have encouraged the Clallam County Board of County Commissioners to fund the program by drawing down on unspent surplus and/or reserve dollars that have accumulated within the Hargrove tax line within Clallam County government. Given that the focus is on use of surplus and/or reserves, a decision to fund mental health court from this budget line will not be at the expense of other programs that operate based on disbursements from this fund.*
- 14) Does Clallam County have the treatment resources needed to operate a mental health court?** *Clallam County has robust mental health treatment resources, particularly for a rural county. The primary mental health provider, Peninsula Behavioral Health (PBH) offers a broad scope of outpatient services including psychotherapy, case management, intensive case management, care coordination, psychiatric rehabilitation services, adult day support, peer support, and psychiatric medications services. Supported housing and employment services complement the more traditional treatment services. PBH has recently expanded to include on site intensive outpatient substance use treatment services and primary care services. Finally, PBH also offers 24 hour Crisis supports as well as a 6 bed crisis stabilization program. Service offerings are more limited on the west end of the county, but PBH coordinates with West End Outreach Services to fill gaps when appropriate.*
- 15) Would the existing management structure of the county's therapeutic courts need to be restructured, and if so, under whose authority and management?** *Proponents of mental health court believe that it is appropriate to explore the possibility of combining the Administrative Assistant position for mental health court with that of one of the other three existing therapeutic courts. We are not, however, recommending that either Adult Drug Court, Juvenile Drug Court or the Living in Families Together (LIFT) Court be re-structured. Instead, we are proposing the establishment of a new variety of therapeutic court that is designed to address an offender population with unique needs that cannot otherwise be adequately addressed through any of the county's existing therapeutic courts. Moreover, representatives from other counties that operate multiple therapeutic courts informed us that mixing and matching therapeutic court participants is contraindicated for a variety of reasons.*

16) What types of cases would be referred to a mental health court? *As with the county's Adult and Juvenile Drug Court programs, eligibility will be determined by the County Prosecuting Attorney. Based on outreach to and discussion with other prosecutors whose jurisdictions participate in mental health court, eligible offenses will likely include a variety of misdemeanor and gross misdemeanor offenses, select nonviolent felonies and a limited number of violent felony offenses with the consent of the victim or survivor.*

17) What analytic mechanisms would be utilized to track accomplishment of the stated goals? *Proponents of mental health court believe that the best way to track accomplishments is through the maintenance of clearly defined metrics. These metrics may include, for example, number of defendants who are charged with eligible crimes, number of defendants who petition in to the program, number of defendant's who are accepted in to the program, average length in program, program participant recidivism rate measured pre versus post program, etc. In addition, feedback from law and justice and community stakeholders will prove valuable in assessing whether the program is accomplishing stated goals.*

18) Who would have authority to control how the court would be populated? *The County Prosecuting Attorney will be responsible for identifying the types of crime that are eligible for participation in the program. The Mental Health Court Coordinator will be responsible for assuring that candidates meet agreed upon diagnostic criteria as a pre-condition to being accepted into the program. The District Court Judge will be responsible for making the ultimate determination regarding who is accepted into and remains in the program.*

19) What additional judicial or staff needs would be required to operate another court? *Presiding Judge David Neupert of Clallam County District Court I has graciously offered to oversee operation of Clallam County's Mental Health Court. Moreover, he has offered to do so without requesting any additional judicial officer resource, notwithstanding the fact that AOC has identified that District Court I based on case volume warrants 1.5 FTE judicial officers.*

Judicial officer resource aside, proponents of mental health court are requesting funding for a full time equivalent Mental Health Court Coordinator, a part time Administrative Assistant and startup costs to establish a workspace and basic supplies for these positions.

As previously noted, the County Prosecuting Attorney has agreed to absorb any additional prosecutorial workload within the office at no additional expense.

20) Where would the drug court meet? *Assuming that this question was intended to ask where mental health court will meet, Presiding District Court I Judge Dave Neupert is willing to convene mental health court in the historic courtroom.*

21) How are the significant issues related to HIPPA [sic] addressed? *HIPAA privacy and security laws generally apply to health care providers and not to courts. Proponents of mental health court in Clallam County believe that the best way to address any confidentiality concerns that arise in connection with the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and/or state counterpart legislation located primarily in Revised Code of Washington (RCW) 70.02 is through execution of a HIPAA compliant waiver. Every other mental health court that was surveyed employs the use of HIPAA compliant waivers to address privacy concerns. We see no reason why the use of such waivers should not work in Clallam County.*

22) What would be the up front costs of setting up such a court in terms of training, etc.? *Representatives from other county Mental Health Courts strongly recommend that Clallam County's Mental Health Court team attend training offered through the National Association of Drug Court Professionals (NADCP), the mandate for which is broader than just drug courts and includes other treatment courts specifically including mental health courts. The cost for this training, absent the award of a scholarship or grant, is currently \$745.00/person not including airfare, room, board and per diem.*

In addition to conferences and formal training, Presiding District Court I Judge David Neupert has already joined the District and Municipal Court Judges' Association, Therapeutic Courts Committee and has been participating in meetings for months.

Moreover, Prosecuting Attorney Mark Nichols has actively outreached to numerous other Washington counties and audited their mental health courts, obtained many of their policies and procedures, forms and waiver templates. He has also conducted in depth interviews with Mental Health Court Coordinators from several other counties.

23) Are there other options that might be more effective? For example, would a diversion program that existed prior to the filing of charges that would be run by some agency (PBH / Jamestown etc.) be more effective, and keep county government out of direct management of this process? *Proponents of mental health court in Clallam County believe that treatment is only as effective as it is utilized. Further that most people who are suffering from a mental health disorder that has evolved to the point of contributing to alleged criminal behavior will not proactively consent to a mental health evaluation and follow treatment recommendations without a strong incentive. For this reason, proponents of mental health court in Clallam County believe that a post charge, pre-conviction model similar to what is employed in a number of other county jurisdictions will best incentivize compliance with programmatic requirements.*

24) If created, how would a MHC operate within the different levels of courts in the county? *Mental health court will be sited within Clallam County District Court I. Cases filed within District Court I would simply remain under the jurisdiction of this Court. The State may opt to file at a misdemeanor or gross misdemeanor level certain cases that could otherwise be filed as felonies*

in order to facilitate eligibility. Select felonies could be transferred into the program provided there is cooperation between the Prosecutor, defense attorney and the Superior and District Courts.

- 25) Do the agencies in the county which provide mental health treatment have a desire to be involved in a weekly mental health court if patterned after a drug court model?** *Yes. Ms. Wendy Sisk, CEO at Peninsula Behavioral Health, has been involved in discussions surrounding the concept of a mental health court for years. Moreover she has been actively participating in planning meetings held in connection with the effort to establish a mental health court in Clallam County for the last six months.*

Ms. Tanya MacNeil, Executive Director of West End Outreach Services in Forks, has also expressed strong support for mental health court.

Additionally, numerous other mental health stakeholders within the community have voiced their strong support for a Mental Health Court. This includes, but is not limited to, the entire membership of the Clallam County Law and Justice Council, Peninsula Behavioral Health, West End Outreach Services, Olympic Medical Center, Forks Hospital, the REdisCOVERY program, a representative from the Port Angeles Paramedicine Program, and representatives from local treatment providers.

19SHSP Investment and Regional Project

Investment Justification

Washington is comprised of 39 counties with geography including forests, mountains, islands, rainforests, rivers, lakes, and plains. The U.S. Bureau of Economic Analysis ranked Washington 13 of 50 states for gross domestic product in 2017; several world-class organizations headquarter their operations within the state. Washington has marine, aviation, rail, and road transportation infrastructure to support its position as a bustling trade center. Approximately half of Washington's 7.5 million population lives in the Seattle metropolitan area located along the Puget Sound. This area is the center of transportation, business, and industry and is the fastest growing region in the state. Over three-fourths of the state's population lives in densely settled urbanized areas. Understanding Washington's population is critical in order to mitigate vulnerabilities, respond to incidents, and effectively concentrate recovery efforts. Washington is subject to ten natural hazards and seven human-caused hazards. The THIRA focuses on eight of those risks: earthquake, tsunami, flood, biological [communicable disease], wildfire, radiological, cyber incident, and terrorism. Planning, training, and exercise efforts are being restructured to encompass the entire spectrum of catastrophic incidents within this context. Washington saw few significant changes in the 2018 Capabilities Assessment. The lowest rated capabilities were Situational Assessment, Mass Care Services, Economic Recovery, Health and Social Services, and Housing – all essential during a catastrophic incident. - The strongest capabilities lie in Public Information and Warning and the most opportunity lie in Situational Assessment. The 2018 SPR results confirmed the findings from prior years: Stakeholders at every level struggle to sustain emergency response capabilities with dwindling resources and are significantly challenged preparing for catastrophic disasters. Since the early 2000s, cumulative emergency management funding at the state and local levels has reduced significantly causing an increased dependence on federal grants to meet necessary emergency management requirements. As a result, many areas are in a sustainment mode when it comes to emergency management capability and capacity.

Investment #3 - Regional Homeland Security Projects

The State is divided into 9 Homeland Security Regions, made up of 39 counties, which differ in many respects including geography (from marine to desert), major industry (from large business to agricultural), and population (from dense urban settings to rural areas). Each Region develops projects to address their specific risks and hazards which sustain previously built capabilities or close identified gaps. While the communities may differ, emergency management priorities are similar across the state and most initiatives can be tied back to building regional capability to respond and recover, and be in "a state of readiness" through planning, training, equipping, or exercising, should a natural or human-caused catastrophic incident occur. As communicated in the 2017 and confirmed in the 2018 THIRA, Capabilities Estimation, & SPR, gaps have been identified in the following core capabilities. All jurisdictions have targeted efforts related to Operational Coordination. The foremost gaps are: 1) **PLANNING**: Plans lack horizontal and vertical integration and need adjusting to be scalable for use during a catastrophic incident. Recovery needs to be incorporated. 2) **ORGANIZATION**: Response and recovery to catastrophic incidents will require additional trained personnel to support either large-scale or long-term activations. 3) **EQUIPMENT**: There is a lack of integration and interoperability of tools to form a Common Operating Picture for all stakeholders. Additionally, equipment continues to age, with subsequent degradation occurring with routine usage, and there is a lack of funding to sustain and/or replace. Resiliency is still an evolving concept without a formalized statewide, whole community approach to focus efforts. While the State is introducing initiatives to combat that reality, local jurisdictions still struggle with gaps related to Community Resilience: 1) **TRAINING**: Individuals and businesses need to move from awareness to action. 2) **EXERCISE**: Communities are dependent on volunteers to exercise this capability and do not have the tools or expertise to engage stakeholders. Related to Resilience, jurisdictions recognize the need to communicate with all stakeholders and continue to expand the reach of their messaging. Initiatives are ongoing to address the identified Public Information and Warning gap related to 1) **PLANNING**: Plans do not fully address communicating with non-English speaking populations, immigrant groups, and individuals with disabilities.

Clallam County Sheriff's Office, Emergency Management Unit

Region-2 Homeland Security Project

Region 2 will sustain current capabilities in Public Information and Warning and increasing citizen awareness and participation. Citizen response core is a priority in all counties.

Activities will include:

- 1) Sustain all-hazards disaster preparedness outreach, training, planning and exercise.
- 2) Update and expand the Region 2 Interoperable Communications Plan
- 3) Upgrade and enhance communication systems throughout the region. Equipment will be replaced as identified and all communications investments will align with the Statewide Communication Interoperable Plan (SCIP) and will be coordinated with the Statewide Interoperability Coordinator (SWIC).
- 4) Maintain EOC readiness through equipment and technology upgrades and maintenance and ongoing exercises.
- 5) Sustain first responder and special teams equipment and training.

WHY IS THE WORK NEEDED?

GAP identified

Clallam County's Five Operational Areas do not have geographically specific resource inventories to expedite response capabilities and reduce their vulnerabilities created by isolation during emergencies and disasters.

CAPABILITY sustained or enhanced

This investment enhances the Planning and Long-term Vulnerability Reduction capabilities by increasing awareness and inventorying the resource lifelines in each operational area.

ACTIVITIES TO BE PERFORMED

- Coordinate trainings on executing response capabilities, and resource inventorying
- Develop documents and forms to use across the operational areas

ASSOCIATED DELIVERABLES/OUTPUTS

- Resource lifelines confirmed for each operational area
- A consistent operational area inventory system is functioning for each of the five areas
- Memorandum of understanding documents are completed

DESIRED OUTCOMES

During local events, emergencies, and mega-disasters the Five Operational Areas are easily able to access lifeline resources and expedite any response needed to save lives and reduce harm.

WHY IS THE WORK NEEDED?**GAP identified**

- Community resilience is impacted by many gaps, which include: limited volunteer responders, small number of communities completing Map Your Neighborhood, not enough community members have general preparedness information, there are not enough individual/group response training, and a lack of available business preparedness training.
- Geography of the county limits teams from forming. In many cases, multiple trainings have to be offered to ensure enough volunteers can form a team.
- Medical Reserve Corps participation isn't as strong as it used to be.

CAPABILITY sustained or enhanced

This investment enhances the Community Resilience capability by building stronger citizen response teams, and a general public more prepared to take care of themselves, their family and neighbors in an emergency.

ACTIVITIES TO BE PERFORMED

- Conduct outreach efforts through town forums, community workshops, Map Your Neighborhood (neighborhoods, vertical neighborhoods, atypical zones and businesses), CPOD team trainings, and other volunteer responder and recovery trainings.
- Conduct at least one exercise with Northwest Health Response Network.
- Continue to coordinate with other whole community partners to engage the community in "out of the box" ways.
- Offer additional trainings.

ASSOCIATED DELIVERABLES/OUTPUTS

- Increased number of Map Your Neighborhood trained neighborhoods.
- Increased CERT trained citizens and Teams in place.
- Increased Medical Reserve Corps members.
- Additional CPOD trainings leading to more people trained to operate a CPOD.
- Double the number of Earthquake and Tsunami town forums in 2019.
- At least one Reverse CPOD trainings per year.
- Increased citizen and business readiness and resiliency by 10%.

DESIRED OUTCOMES

- Mission of "Being prepared" is the social norm in Clallam County.
- The Medical Reserve Corps capacity and capability is incorporated into Clallam County.
- Connections are made across multiple community partners with benefits to each and ultimately greater community resilience following a disaster.

Repetitive instances of incorrect invoicing or inadequate records may be considered cause for termination.

All work performed under this Agreement and any property and equipment purchased shall be made available to ECOLOGY and to any authorized state, federal or local representative for inspection at any time during the course of this Agreement and for at least three (3) years following grant or loan termination or dispute resolution hereunder.

24. SEVERABILITY

If any provision of this Agreement or any provision of any document incorporated by reference shall be held invalid, such invalidity shall not affect the other provisions of this Agreement which can be given effect without the invalid provision, and to this end the provisions of this Agreement are declared to be severable.

25. STATE ENVIRONMENTAL POLICY ACT (SEPA)

RECIPIENT must demonstrate to ECOLOGY's satisfaction that compliance with the requirements of the State Environmental Policy Act (Chapter 43.21C RCW and Chapter 197-11 WAC) have been or will be met. Any reimbursements are subject to this provision.

When in the best interest of ECOLOGY, ECOLOGY may at any time, and without cause, suspend this Agreement or any portion thereof for a temporary period by written notice from ECOLOGY to the RECIPIENT. RECIPIENT shall resume performance on the next business day following the suspension period unless another day is specified by ECOLOGY.

28. TERMINATION

a) For Cause

ECOLOGY may terminate for cause this Agreement with a seven (7) calendar days prior written notification to the RECIPIENT, at the sole discretion of ECOLOGY, for failing to perform an Agreement requirement or for a material breach of any term or condition. If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

Failure to Commence Work. ECOLOGY reserves the right to terminate this Agreement if RECIPIENT fails to commence work on the project funded within four (4) months after the effective date of this Agreement, or by any date mutually agreed upon in writing for commencement of work, or the time period defined within the Scope of Work.

Non-Performance. The obligation of ECOLOGY to the RECIPIENT is contingent upon satisfactory performance by the RECIPIENT of all of its obligations under this Agreement. In the event the RECIPIENT unjustifiably fails, in the opinion of ECOLOGY, to perform any obligation required of it by this Agreement, ECOLOGY may refuse to pay any further funds, terminate in whole or in part this Agreement, and exercise any other rights under this Agreement.

Despite the above, the RECIPIENT shall not be relieved of any liability to ECOLOGY for damages sustained by ECOLOGY and the State of Washington because of any breach of this Agreement by the RECIPIENT. ECOLOGY may withhold payments for the purpose of setoff until such time as the exact amount of damages due ECOLOGY from the RECIPIENT is determined.

b) For Convenience

ECOLOGY may terminate for convenience this Agreement, in whole or in part, for any reason when it is the best interest of ECOLOGY, with a thirty (30) calendar days prior written notification to the RECIPIENT, except as noted below. If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

Non-Allocation of Funds. ECOLOGY's ability to make payments is contingent on availability of funding. In the event funding from state, federal or other sources is withdrawn, reduced, or limited in any way after the effective date and prior to the completion or expiration date of this Agreement, ECOLOGY, at its sole discretion, may elect to terminate the Agreement, in whole or part, or renegotiate the Agreement, subject to new funding limitations or conditions. ECOLOGY may also elect to suspend performance of the Agreement until ECOLOGY determines the funding insufficiency is resolved. ECOLOGY may exercise any of these options with no notification or restrictions, although ECOLOGY will make a reasonable attempt to provide notice.

In the event of termination or suspension, ECOLOGY will reimburse eligible costs incurred by the RECIPIENT through the effective date of termination or suspension. Reimbursed costs must be agreed to by ECOLOGY and the RECIPIENT. In no event shall ECOLOGY's reimbursement exceed ECOLOGY's total responsibility under the agreement and any amendments. If payments have been discontinued by ECOLOGY due to unavailable funds, the RECIPIENT shall not be obligated to repay monies which had been paid to the RECIPIENT prior to such termination.

RECIPIENT's obligation to continue or complete the work described in this Agreement shall be contingent upon availability of funds by the RECIPIENT's governing body.

c) By Mutual Agreement

ECOLOGY and the RECIPIENT may terminate this Agreement, in whole or in part, at any time, by mutual written agreement.

d) In Event of Termination

All finished or unfinished documents, data studies, surveys, drawings, maps, models, photographs, reports or other materials prepared by the RECIPIENT under this Agreement, at the option of ECOLOGY, will become property of ECOLOGY and the RECIPIENT shall be entitled to receive just and equitable compensation for any satisfactory work completed on such documents and other materials.

Nothing contained herein shall preclude ECOLOGY from demanding repayment of all funds paid to the RECIPIENT in accordance with Recovery of Funds, identified herein.

29. THIRD PARTY BENEFICIARY

RECIPIENT shall ensure that in all subcontracts entered into by the RECIPIENT pursuant to this Agreement, the state of Washington is named as an express third party beneficiary of such subcontracts with full rights as such.

30. WAIVER

Waiver of a default or breach of any provision of this Agreement is not a waiver of any subsequent default or breach, and will not be construed as a modification of the terms of this Agreement unless stated as such in writing by the authorized representative of ECOLOGY.

Executive summary:

In 1993, due to changes in the regulations regarding the disposal of septage waste, the City of Sequim, and the County entered into the attached interlocal agreement (ILA) that would provide for a lower cost alternative to hauling septage waste out of the County for disposal. The evolution of other disposal options soon rendered this ILA moot and it was never used. The City of Sequim is seeking County concurrence to terminate this agreement per paragraph 8 sub (a) "This agreement shall terminate...by mutual agreement of the City and the County." The City has proposed a joint resolution for consideration by the County (attached).

Re: Interlocal Agreement for Septage Treatment and Disposal (1993)

Dear Ms. Gores:

As you know, the utilities managers and the attorneys for the City of Sequim and the Board of County Commissioners are in agreement that a never-utilized 1993 Interlocal Agreement between the two agencies regarding septage treatment and disposal is obsolete and should be terminated.

Enclosed is a proposed joint resolution that we suggest be presented to the Board and the City Council to formally terminate this ILA. Please have the civil deputy look it over to see if it meets the County's needs. We are happy to revise it, if necessary. If no changes are needed, please present it to the Board at your earliest opportunity and send it back to us so we can do the same with the City Council.

I look forward to hearing back from you.

Sincerely,

Erika Hamerquist
Paralegal

---	--

WHEREAS, in 1993 the City of Sequim and Clallam County entered into an Interlocal Agreement (ILA) in which the County proposed to pay to modify the City's sewer treatment facility so that residential systems outside Sequim's city limits but within the boundaries of the Sequim School District could utilize that facility for treatment and disposal of septage; and

INTERLOCAL AGREEMENT

THIS AGREEMENT is entered into and between CLALLAM COUNTY, a political subdivision of the State of Washington, hereinafter referred to as the County, and THE CITY OF SEQUIM, a municipal corporation, hereinafter referred to as City.

WHEREAS, the County is faced with a public emergency regarding treatment of septage within Clallam County;

WHEREAS, the citizens of the County are desirous of reducing costs and increasing disposal options for septage;

WHEREAS, the City owns and operates a sewer treatment facility which could be modified to handle and treat septage; and

WHEREAS, the City and County would like to work cooperatively to address the public health emergency.

NOW, THEREFORE, the County and City make the following agreement:

1. Septage from residential systems within the boundaries of the Sequim School District shall be accepted and treated at the Sequim Sewer Treatment facilities if modified to accommodate septage disposal.

2. The cost of any modifications necessary to the Sequim sewer treatment facility shall be born entirely by the County. Planning, engineering, financing, permitting and any other matter necessary to plan and construct septage disposal facilities shall be the financial and logistical responsibility of the County; the City shall have final approval of plans and designs and oversee any modification needed to the treatment facilities.

3. By execution of this agreement, the city authorizes the county, its officers, employees and agents to have access to city property and facilities in order to facilitate the County's responsibilities under paragraph (2) above. To the greatest extent possible, the County shall give the City prior oral notification of its intention to access City property or facilities.

4. Upon completion of the modification to the City property to handle septage disposal, maintenance, operation and replacement shall be the responsibility of the City and the County shall have no financial responsibility, provided however that this agreement shall not be deemed to modify the responsibility of either party under any federal or state law relating to haz-

ardous waste.

5. Nothing herein shall be deemed to inhibit the cities ability to freely use any enhancement constructed for the disposal of septage from any source.

6. The parties understand and agree that a reasonable fee will be charged for the use of the septage processing and septage disposal system, and that such fee and the manner of collection of any such fee will be initially established and modified from time to time at the discretion of the City with input from a County representative. Fees to be retained by the City of Sequim.

7. The County and the City covenant that it is the intent of both parties and the intent of this agreement to comply with all Federal and State laws, regulations and court orders. With the intent of effectuating that understanding, notwithstanding any other provision in this contract, the City of Sequim reserves the right to unilaterally rescind this agreement if, and only if, such rescission is necessary to the City's compliance with any such Federal or State laws, regulations or court orders.

8. Except as provided in paragraph (7) hereinabove, This agreement shall terminate only under the following circumstances:

a. By mutual agreement of the City and County.

Executive summary:

Earlier this year, the Board of County Commissioners signed a grant agreement with Recreation and Conservation Office to become the grant's co-sponsors with Jamestown S'Klallam Tribe. JST has requested a scope change to purchase a parcel from a willing landowner. RCO requires that BOCC sign the amendment. To improve both Clallam County's Dungeness floodplain restoration project, future operation and maintenance of the levee, and the Jamestown S'Klallam Tribe's River's Edge project, we will reconfigure some of the property lines and write easements. Doing so also clarifies Clallam County's operation and maintenance responsibilities for the levee. Adding Clallam County to the grant as a co-sponsor ("Special Provision 2, Clallam County as secondary sponsor") helps to streamline the process for the granting agency (in this case, the Recreation and Conservation Office), Jamestown S'Klallam Tribe, and Clallam County.

Budgetary impact: (Is there a monetary impact? If so, are funds for this already allocated or is a budget change necessary? If this is a contract and a budget change is necessary, the budget change form must be submitted with the item at work session and for the regular agenda) **If a budget action is required, has it been submitted and a copy attached?** ☐
No budget action required.

Recommended action: (Does the Board need to act? If so, what is the department's recommendation?)
Please sign the grant agreement.

Legal action requested or question you desire to be answered:

Please review and, if appropriate, approve for signature the attached language that amends an agreement to add Clallam County as a co-sponsor on a grant managed by the Jamestown S'Klallam Tribe. The BOCC signed the agreement earlier this year. However, in its signing the Tribe did not date the signature. Additionally, the Jamestown Tribe has amended the scope to include a land purchase from a willing landowner and both co-sponsors signatures are required for the scope change. It is Amendment #8 because the Tribe has amended the agreement in the past, prior to the County becoming co-sponsor. Below are the references to changes from the agreement first signed by BOCC:

1. Time Extension
 - a. Page 1- Period of Performance, first sentence..."The period of performance begins on January 19, 2018 (project start date) and ends on December 31, 2021 (project end date).
2. Co-Sponsor
 - a. Page 3-This language remains the same as the original amend 8, and remains in this one also since RCO never completed the process the first time we went through this process. The commissioners have seen this language and approved it during the first process, but is folded back into this process because RCO did not complete the first process because the document lacked a written in date.
3. Change in Scope of Work
 - a. Page 6-Added Property Savage (Worksite #2, River Miles 0-11), this is the 3.1 acres we are currently working to acquire from the willing landowner.
4. Limited Waiver of Sovereign Immunity-Specific to Jamestown S'Klallam Tribe

The identified Authorized Representative(s)/Agent(s) have full authority to legally bind the Sponsor(s) regarding all matters related to the project, including but not limited to, full authority to: (1) enter into this project agreement on behalf of the Sponsor(s), (2) enter any amendments thereto on behalf of the Sponsors. Agreements and amendments must be signed by the Authorized Representative/Agent(s) of all sponsors, unless otherwise allowed in Amendments to Agreement Section.

For the purposes of this Agreement, as well as for grant management purposes with RCO, only the primary Sponsor may act as a fiscal agent to obtain reimbursements (See PROJECT REIMBURSEMENTS section).

PURPOSE OF AGREEMENT

This Agreement sets out the terms and conditions by which a grant is made from the State Building Construction Account of the State of Washington. The grant is administered by the Recreation and Conservation Office (RCO).

DESCRIPTION OF PROJECT

This project is an acquisition/planning project. The overall goal is to purchase (fee-simple), restore, and forever conserve over 16 acres of floodplain habitat within the lower 11 miles of the Dungeness River near Sequim, WA. The project will also begin restoration design to set back a levee to allow for greater floodplain connection. Habitats including active channel, side channels, connected and disconnected floodplain and floodplain forest will be restored by removal of hard-armoring and levee structures. The combined ecosystem restoration and conservation actions will benefit ESA -listed Chinook, bull trout, summer chum, and steelhead, along with coho, pinks, and fall chum.

Recovery of sustainable, harvestable runs of salmon on the Dungeness is a cultural and economic priority of the Tribe and this project is an important step towards that goal. As a multi-benefit floodplain restoration project that will restore habitat, reconnect floodplain, reduce flood-risk, reduce maintenance costs for publicly owned facilities, create a healthier floodplain ecosystem and increase recreational opportunities just minutes from Sequim, the project benefits the entire community and region. Removal of infrastructure and hard armoring from the channel and floodplain will allow for natural habitat forming processes to resume in this degraded reach. Juvenile salmon need access to floodplains, natural bank vegetation, and diverse river habitats for refuge and feeding.

PERIOD OF PERFORMANCE

The period of performance begins on January 19, 2018 (project start date) and ends on December 31, 2021 (project end date). No allowable cost incurred before or after this period is eligible for reimbursement unless specifically provided for by written amendment or addendum to this Agreement, or specifically provided for by applicable RCWs, WACs, and any applicable RCO manuals as of the effective date of this Agreement.

The Sponsor must request extensions of the period of performance at least 60 days before the project end date.

STANDARD TERMS AND CONDITIONS INCORPORATED

The Standard Terms and Conditions of the Recreation and Conservation Office are hereby incorporated by reference as part of this Agreement.

The Sponsor shall be responsible for all total project costs that exceed this amount. The minimum matching share provided by the Sponsor shall be as indicated below:

During this period, the Sponsor has continuing obligations under the Agreement. This period may have a nonspecific end date (in perpetuity) or an expressly specified number of years.

PERFORMANCE BY THE SPONSOR

The Sponsor shall undertake the project as described in this Agreement, and in accordance with the Sponsor's proposed goals and objectives described in the application or documents submitted with the application, all as finally approved by the RCO. All submitted documents are incorporated by this reference as if fully set forth herein.

Timely completion of the project and submission of required documents, including progress and final reports, is important. Failure to meet critical milestones or complete the project, as set out in this Agreement, is a material breach of the Agreement.

ASSIGNMENT

Neither this Agreement, nor any claim arising under this Agreement, shall be transferred or assigned by the Sponsor without prior written consent of the RCO.

RESPONSIBILITY FOR PROJECT

While RCO administers the grant that is the subject of this Agreement, the project itself remains the sole responsibility of the Sponsor. The RCO and Funding Entity (if different from the RCO) undertakes no responsibilities to the Sponsor, or to any third party, other than as is expressly set out in this Agreement. The responsibility for the implementation of the project is solely that of the Sponsor. When a project is Sponsored by more than one entity, any and all Sponsors are equally responsible for the project and all post-completion stewardship responsibilities and long-term obligations unless otherwise stated in this Agreement.

The RCO has no responsibility for reviewing, approving, overseeing or supervising design or construction of the project and leaves such review, approval, oversight and supervision exclusively to the Sponsor and others with expertise or authority. In this respect, the RCO will act only to confirm at a general, lay, and nontechnical level, solely for the purpose of compliance and payment and not for safety or suitability, that the project has apparently been completed as per the Agreement.

INDEMNIFICATION

Subject to the limitations provided in this Agreement, the Sponsor shall defend, indemnify, and hold the Recreation and Conservation Office (RCO), the Recreation and Conservation Funding Board, the Salmon Recovery Funding Board, collectively referred to herein as "the RCO"; and its officers and employees harmless from all damage, loss, claims, demands, or suits at law or equity arising in whole or in part from the actual or alleged acts, errors, omissions or negligence in connection with this Agreement (including without limitation all work or activities thereunder), or the breach of any obligation under this Agreement, by the Sponsor or the Sponsor's agents, employees, contractors, and subcontractors of any tier, or any persons for whom the Sponsor may be vicariously liable. If the RCO is immune from suit pursuant to a specific statutory exemption and or limitation as to the particular claim, demand(s), or suit(s) at law or equity, the Sponsor shall have no obligation to defend, indemnify or hold the RCO harmless. Should this section conflict with any other section of this Agreement, the terms of this section shall take precedence.

Provided that nothing herein shall require a Sponsor to defend or indemnify the RCO against and hold harmless the RCO from claims, demands or suits at law or equity based solely upon the negligence of the RCO, its employees and/or agents for whom the RCO is vicariously liable.

Provided further that if the claims or suits are caused by or result from the concurrent negligence of (a) the Sponsor or the Sponsor's agents or employees, contractors, and subcontractors of any tier, or any persons for whom the Sponsor is vicariously liable, and (b) the RCO its employees and agents, contractors, and subcontractors of any tier or any for whom it is vicariously liable, the indemnity obligation shall be valid and enforceable only to the extent of the Sponsor's negligence or the negligence of the Sponsor's agents, employees, contractors, and subcontractors of any tier, or any persons for whom the Sponsor may be vicariously liable.

In the event a tribal employee files suit against the RCO for damages sustained in an occupational injury occurring while the tribal employee is performing services pursuant to this agreement, and RCO seeks indemnification by the tribe under this agreement for such a damages claim, the tribe shall waive and not assert immunity under the tribe's or the State's workers' compensation laws. The tribe's agreement not to assert its immunity under workers' compensation laws applies only to a claim by RCO for indemnification under this agreement, and does not preclude the tribe from asserting immunity or any other viable defenses to a claim by either a tribal employee or a third party.

INDEPENDENT CAPACITY OF THE SPONSOR

The Sponsor and its employees or agents performing under this Agreement are not officers, employees or agents of the RCO or Funding Entity. The Sponsor will not hold itself out as nor claim to be an officer, employee or agent of the RCO or the Funding Entity, or of the state of Washington, nor will the Sponsor make any claim of right, privilege or benefit which would accrue to an employee under RCW 41.06.

The Sponsor is responsible for withholding and/or paying employment taxes, insurance, or deductions of any kind required by applicable federal, state, and/or local laws.

CONFLICT OF INTEREST

Notwithstanding any determination by the Executive Ethics Board or other tribunal, RCO may, in its sole discretion, by written notice to the Sponsor terminate this Agreement if it is found after due notice and examination by RCO that there is a violation of the Ethics in Public Service Act, RCW 42.52 if applicable; or any similar applicable statute involving the Sponsor in the procurement of, or performance under, this Agreement.

In the event this Agreement is terminated as provided herein, RCO shall be entitled to pursue the same remedies against the Sponsor as it could pursue in the event of a breach of the Agreement by the Sponsor. The rights and remedies of RCO provided for in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law or this Agreement.

COMPLIANCE WITH APPLICABLE LAW

In implementing the Agreement, the Sponsor shall comply with all applicable federal, state, and local laws (including without limitation all applicable ordinances, codes, rules, and regulations).

- A. **Nondiscrimination Laws.** The Sponsor shall comply with all applicable federal, state, and local nondiscrimination laws and/or policies, including but not limited to: the Americans with Disabilities Act; Civil Rights Act; and the Age Discrimination Act; provided, however, if consistent with federal law, the applicable tribal preference laws may otherwise apply if the Sponsor is a federally recognized Indian Tribe. In the event of the Sponsor's noncompliance or refusal to comply with any nondiscrimination law or policy, the Agreement may be rescinded, cancelled, or terminated in whole or in part, and the Sponsor may be declared ineligible for further grant awards from the RCO or Funding Entity. The Sponsor is responsible for any and all costs or liability arising from the Sponsor's failure to so comply with applicable law. Except where a nondiscrimination clause required by a federal funding agency is used, the Sponsor shall insert the following nondiscrimination clause in each contract for construction of this project:

"During the performance of this contract, the contractor agrees to comply with all applicable federal and state nondiscrimination laws, regulations and policies."

- B. **Secular Use of Funds.** No funds awarded under this grant may be used to pay for any religious activities, worship, or instruction, or for lands and facilities for religious activities, worship, or instruction. Religious activities, worship, or instruction may be a minor use of the grant supported recreation and conservation land or facility.
- C. **Wages and Job Safety.** The Sponsor agrees to comply with all applicable laws, regulations, and policies of the United States and the State of Washington or other jurisdiction which affect wages and job safety. The Sponsor agrees when state prevailing wage laws (RCW 39.12) are applicable, to comply with such laws, to pay the prevailing rate of wage to all workers, laborers, or mechanics employed in the performance of any part of this contract, and to file a statement of intent to pay prevailing wage with the Washington State Department of Labor and Industries as required by RCW 39.12.40. The Sponsor also agrees to comply with applicable provisions of the rules and regulations

of the Washington State Department of Labor and Industries. However, applicable tribal wage and safety rules and preferences may otherwise apply if the Sponsor is a federally recognized Indian Tribe.

If Sponsor is a federally recognized Indian Tribe, the following shall apply: The Tribe shall provide workers compensation coverage for all of its employees in accordance with applicable tribal worker's compensation laws. To the extent grant funded employees are not subject to tribal workers compensation program coverage, they shall be covered by applicable state or federal workers compensation laws, and the Tribe shall not assert immunity under such workers compensation laws for actions brought under such laws by its employees or agents; and if such employees are not subject to state or federal workers compensation laws, the Tribe shall require employees to be insured under Employer's Contingent Liability (Stop Gap) with a minimum coverage limit of \$1,000,000 on accident and aggregate.

- D. **Archaeological and Cultural Resources.** RCO facilitates the review of applicable projects for potential impacts to archaeological sites and state cultural resources. The Sponsor must assist RCO in compliance with Governor's Executive Order 21-02 or the National Historic Preservation Act before and after initiating ground-disturbing activity or construction, repair, installation, rehabilitation, renovation, or maintenance work on lands, natural resources, or structures. The funding board requires documented compliance with Executive Order 21-02 or Section 106 of the National Historic Preservation Act, whichever is applicable to the project. If a federal agency declines to consult, the Sponsor shall comply with the requirements of Executive Order 21-02. In the event that archaeological or historic materials are discovered during project activities, work in the location of discovery and immediate vicinity must stop instantly, the area must be secured, and notification must be provided to the following: concerned Tribes' cultural staff and cultural committees, RCO, and the State Department of Archaeology and Historic Preservation. If human remains are discovered during project activity, work in the location of discovery and immediate vicinity must stop instantly, the area must be secured, and notification provided to the concerned Tribe's cultural staff and cultural committee, RCO, State Department of Archaeology, the coroner and local law enforcement in the most expeditious manner possible according to RCW 68.50.
- E. **Restrictions on Grant Use.** No part of any funds provided under this grant shall be used, other than for normal and recognized executive-legislative relationships, for publicity or propaganda purposes, or for the preparation, distribution, or use of any kit, pamphlet, booklet, publication, radio, television, or video presentation designed to support or defeat legislation pending before the U.S. Congress or any state legislature.

No part of any funds provided under this grant shall be used to pay the salary or expenses of any Sponsor, or agent acting for such Sponsor, related to any activity designed to influence legislation or appropriations pending before the U.S. Congress or any state legislature.

- F. **Debarment and Certification.** By signing the Agreement with RCO, the Sponsor certifies that neither it nor its principals nor any other lower tier participant are presently debarred, suspended, proposed for debarment, declared ineligible or voluntarily excluded from participation in this transaction by Washington State Labor and Industries. Further, the Sponsor agrees not to enter into any arrangements or contracts related to this Agreement with any party that is on Washington State Department of Labor and Industries' "Debarred Contractor List."

RECORDS

- A. **Digital Records.** If requested by RCO, the Sponsor must provide a digital file(s) of the project property and funded project site in a format specified by the RCO.
- B. **Maintenance.** The Sponsor shall maintain books, records, documents, data and other evidence relating to this Agreement and performance of the services described herein, including but not limited to accounting procedures and practices which sufficiently and properly reflect all direct and indirect costs of any nature expended in the performance of this Agreement. Sponsor shall retain such records for a period of six years from the date RCO deems the project complete, as defined in the PROJECT REIMBURSEMENTS Section. If any litigation, claim or audit is started before the expiration of the six (6) year period, the records shall be retained until all litigation, claims, or audit findings involving the records have been resolved.
- C. **Access to Records and Data.** At no additional cost, the records relating to the Agreement, including materials generated under the Agreement, shall be subject at all reasonable times to inspection, review or audit by RCO, personnel duly authorized by RCO, the Office of the State Auditor, and federal and state officials so authorized by law, regulation or agreement. This includes access to all information that supports the costs submitted for payment under the grant and all findings, conclusions, and recommendations of the Sponsor's reports, including computer models and methodology for those models.
- D. **Public Records.** Sponsor acknowledges that the RCO is subject to RCW 42.56 and that this Agreement and any records Sponsor submits or has submitted to the State shall be a public record as defined in RCW 42.56. RCO administers public records requests per WAC 286-06 and 420-04 (which ever applies). Additionally, the Sponsor agrees to disclose any information in regards to the expenditure of that funding as if the project sponsor were subject to the requirements of chapter 42.56 RCW. By submitting any record to RCO, Sponsor understands that RCO may be requested to disclose or copy that record under the state public records law, currently codified at RCW 42.56. The Sponsor warrants that it possesses such legal rights as are necessary to permit RCO to disclose and copy such

document to respond to a request under state public records laws. The Sponsor hereby agrees to release RCO from any claims arising out of allowing such review or copying pursuant to a public records act request, and to indemnify against any claims arising from allowing such review or copying, provided that RCO follows RCW 42.56 and applicable regulations and guidance.

PROJECT FUNDING

- A. **Authority.** This Agreement and funding is made available to Sponsor through the RCO.
- B. **Additional Amounts.** The RCO or Funding Entity shall not be obligated to pay any amount beyond the dollar amount as identified in this Agreement, unless an additional amount has been approved in advance by the RCO director and incorporated by written amendment into this Agreement.
- C. **Before the Agreement.** No expenditure made, or obligation incurred, by the Sponsor before the project start date shall be eligible for grant funds, in whole or in part, unless specifically provided for by the RCO director, such as a waiver of retroactivity or program specific eligible pre-Agreement costs. For reimbursements of such costs, this Agreement must be fully executed and an original received by RCO. The dollar amounts identified in this Agreement may be reduced as necessary to exclude any such expenditure from reimbursement.
- D. **After the Period of Performance.** No expenditure made, or obligation incurred, following the period of performance shall be eligible, in whole or in part, for grant funds hereunder. In addition to any remedy the RCO or Funding Entity may have under this Agreement, the grant amounts identified in this Agreement shall be reduced to exclude any such expenditure from participation.

PROJECT REIMBURSEMENTS

- A. **Reimbursement Basis.** This Agreement is administered on a reimbursement basis per WAC 286-13 and/or 420-12, which ever has been designated to apply. Only the primary Sponsor may request reimbursement for eligible and allowable costs incurred during the period of performance. The primary Sponsor may only request reimbursement after (1) this Agreement has been fully executed and (2) the Sponsor has remitted payment to its vendors. RCO will authorize disbursement of project funds only on a reimbursable basis at the percentage as defined in the PROJECT FUNDING Section. Reimbursement shall not be approved for any expenditure not incurred by the Sponsor or for a donation used as part of its matching share. RCO does not reimburse for donations. All reimbursement requests must include proper documentation of expenditures as required by RCO.
- B. **Reimbursement Request Frequency.** The primary Sponsor is required to submit a reimbursement request to RCO, at a minimum for each project at least once a year for reimbursable activities occurring between July 1 and June 30 or as identified in the milestones. Sponsors must refer to the most recent applicable RCO manuals and this Agreement regarding reimbursement requirements.
- C. **Compliance and Payment.** The obligation of RCO to pay any amount(s) under this Agreement is expressly conditioned on strict compliance with the terms of this Agreement and other agreements between RCO and the Sponsor.
- D. **Retainage Held Until Project Complete.** RCO reserves the right to withhold disbursement of the total amount of the grant to the Sponsor until the project has been completed. A project is considered "complete" when:
 - 1) All approved or required activities outlined in the Agreement are done;
 - 2) On-site signs are in place (if applicable);
 - 3) A final project report is submitted to and accepted by RCO;
 - 4) Any other required documents and media are complete and submitted to RCO;
 - 5) A final reimbursement request is submitted to RCO;
 - 6) The completed project has been accepted by RCO;
 - 7) Final amendments have been processed;
 - 8) Fiscal transactions are complete, and
 - 9) RCO has accepted a final boundary map of the project area for which the Agreement terms will apply in the future.

ADVANCE PAYMENTS

Advance payments of or in anticipation of goods or services are not allowed unless approved by the RCO director and are consistent with legal requirements and Manual 8: Reimbursements.

RECOVERY OF PAYMENTS

- A. **Recovery for Noncompliance.** In the event that the Sponsor fails to expend funds under this Agreement in accordance with applicable state and federal laws, and/or the provisions of the Agreement, or meet its percentage of the project total, RCO reserves the right to recover grant award funds in the amount equivalent to the extent of noncompliance in addition to any other remedies available at law or in equity.
- B. **Overpayment Payments.** The Sponsor shall reimburse RCO for any overpayment or erroneous payments made under the Agreement. Repayment by the Sponsor of such funds under this recovery provision shall occur within 30 days of demand by RCO. Interest shall accrue at the rate of twelve percent (12%) per annum from the time that payment becomes due and owing.

COVENANT AGAINST CONTINGENT FEES

The Sponsor warrants that no person or selling agent has been employed or retained to solicit or secure this Agreement on an agreement or understanding for a commission, percentage, brokerage or contingent fee, excepting bona fide employees or bona fide established agents maintained by the Sponsor for the purpose of securing business. RCO shall have the right, in the event of breach of this clause by the Sponsor, to terminate this Agreement without liability or, in its discretion, to deduct from the Agreement grant amount or consideration or recover by other means the full amount of such commission, percentage, brokerage or contingent fee.

INCOME (AND FEES) AND USE OF INCOME

- A. **Compatible source.** The source of any income generated in a funded project or project area must be compatible with the funding source and the Agreement and any applicable manuals, RCWs, and WACs.
- B. **Use of Income.** Subject to any limitations contained in applicable state or federal law and applicable rules and policies, income or fees generated at a project work site (including entrance, utility corridor permit, cattle grazing, timber harvesting, farming, etc.) during or after the reimbursement period cited in the Agreement, must be used to offset:
 - 1) The Sponsor's matching resources;
 - 2) The project's total cost;
 - 3) The expense of operation, maintenance, stewardship, monitoring, and/or repair of the facility or program assisted by the grant funding;
 - 4) The expense of operation, maintenance, stewardship, monitoring, and/or repair of other similar units in the Sponsor's system;
 - 5) Capital expenses for similar acquisition and/or development and renovation; and/or
 - 6) Other purposes explicitly approved by RCO.
- C. **Fees.** User and/or other fees may be charged in connection with land acquired or facilities developed, maintained, renovated, or restored and shall be consistent with the:
 - 1) Grant program laws, rules, and applicable manuals;
 - 2) Value of any service(s) furnished;
 - 3) Value of any opportunities furnished; and
 - 4) Prevailing range of public fees in the state for the activity involved.

PROCUREMENT REQUIREMENTS

Procurement Requirements. If the Sponsor has, or is required to have, a procurement process that follows applicable state and/or federal law or procurement rules and principles, it must be followed, documented, and retained. If no such process exists, the Sponsor must follow these minimum procedures:

- 1) Publish a notice to the public requesting bids/proposals for the project;
- 2) Specify in the notice the date for submittal of bids/proposals;
- 3) Specify in the notice the general procedure and criteria for selection;
- 4) Sponsor must contract or hire from within its bid pool. If bids are unacceptable the process needs to be repeated until a suitable bid is selected; and
- 5) Comply with the same legal standards regarding unlawful discrimination based upon race, gender, ethnicity, sex, or sex-orientation that are applicable to state agencies in selecting a bidder or proposer; provided, however, if consistent with federal law, the applicable tribal preference laws may otherwise apply if the Sponsor is a federally recognized Indian Tribe.

Alternatively, Sponsor may choose a bid from a bidding cooperative if authorized to do so.

This procedure creates no rights for the benefit of third parties, including any proposers, and may not be enforced or subject to review of any kind or manner by any entity other than the RCO. Sponsors may be required to certify to the RCO that they have followed any applicable state and/or federal procedures or the above minimum procedure where state or federal procedures do not apply.

TREATMENT OF EQUIPMENT AND ASSETS

Equipment shall be used and managed only for the purpose of this Agreement, unless otherwise provided herein or in the applicable manuals, or approved by RCO in writing.

A. Discontinued Use. Equipment obtained under this Agreement shall remain in the possession of the Sponsor for the duration of the project, or RULES of applicable grant assisted program. When the Sponsor discontinues use of the equipment for the purpose for which it was funded, RCO may require the Sponsor to deliver the equipment to RCO, or to dispose of the equipment according to RCO published policies.

B. Loss or Damage. The Sponsor shall be responsible for any loss or damage to equipment.

RIGHT OF INSPECTION

The Sponsor shall provide right of access to the project to RCO, or any of its officers, or to any other authorized agent or official of the state of Washington or the federal government, at all reasonable times, in order to monitor and evaluate performance, long-term obligations, compliance, and/or quality assurance under this Agreement. If a landowner agreement or other form of control and tenure has been executed, it will further stipulate and define the RCO's right to inspect and access lands acquired or developed with this funding assistance.

STEWARDSHIP AND MONITORING

Sponsor agrees to perform monitoring and stewardship functions as stated in the applicable WACs and manuals, this Agreement, or as otherwise directed by RCO consistent with the existing laws and applicable manuals. Sponsor further agrees to utilize, where applicable and financially feasible, any monitoring protocols recommended by the RCO; provided that RCO does not represent that any monitoring it may recommend will be adequate to reasonably assure project performance or safety. It is the sole responsibility of the Sponsor to perform such additional monitoring as may be adequate for such purposes.

ACKNOWLEDGMENT AND SIGNS

A. Publications. The Sponsor shall include language which acknowledges the funding contribution of the applicable grant program to this project in any release or other publication developed or modified for, or referring to, the project during the project period and in the future.

B. Signs.

- 1) During the period of performance through the period of long-term obligation, the Sponsor shall post openly visible signs or other appropriate media at entrances and other locations on the project area that acknowledge the applicable grant program's funding contribution, unless waived by the director; and
- 2) During the period of long-term obligation, the Sponsor shall post openly visible signs or other appropriate media at entrances and other locations to notify the public of the availability of the site for reasonable public access.

C. Ceremonies. The Sponsor shall notify RCO no later than two weeks before a dedication ceremony for this project. The Sponsor shall verbally acknowledge the applicable grant program's funding contribution at all dedication

ceremonies.

PROVISIONS APPLYING TO ACQUISITION PROJECTS

The following provisions shall be in force:

- A. **Evidence of Land Value.** Before disbursement of funds by RCO as provided under this Agreement, the Sponsor agrees to supply documentation acceptable to RCO that the cost of the property rights acquired has been established according to all applicable manuals and RCWs or WACs.
- B. **Evidence of Title.** The Sponsor agrees to provide documentation that shows the type of ownership interest for the property that has been acquired. This shall be done before any payment of financial assistance.
- C. **Legal Description of Real Property Rights Acquired.** The legal description of the real property rights purchased with funding assistance provided through this Agreement (and protected by a recorded conveyance of rights to the State of Washington) shall be delivered to RCO before final payment.
- D. **Conveyance of Rights to the State of Washington.** When real property rights (both fee simple and lesser interests) are acquired, the Sponsor agrees to execute an appropriate document (provided or approved by RCO) conveying certain rights and responsibilities to RCO or the Funding Entity on behalf of the State of Washington or another agency of the state, or federal agency, or other organization. These documents include a Deed of Right, Assignment of Rights, Easements and/or Leases as described below. The Sponsor agrees to use document language provided by RCO, to record the executed document in the County where the real property lies, and to provide a copy of the recorded document to RCO. The document required will vary depending on the project type, the real property rights being acquired and whether or not those rights are being acquired in perpetuity.
 - 1) **Deed of Right.** The Deed of Right as described in RCO Manual #3 conveys to the people of the state of Washington the right to preserve, protect, access, and/or use the property for public purposes consistent with the funding source and project agreement. Sponsors shall use this document when acquiring real property rights that include the underlying land. This document may also be applicable for those easements where the Sponsor has acquired a perpetual easement for public purposes.
 - 2) **Assignment of Rights.** The Assignment of Rights as described in RCO Manual #3 document transfers certain rights to RCO and the state such as public access, access for compliance, and enforcement. Sponsors shall use this document when an easement or lease is being acquired under this Agreement. The Assignment of Rights requires the signature of the underlying landowner and must be incorporated by reference in the easement document.
 - 3) **Easements and Leases.** The Sponsor may incorporate required language from the Deed of Right or Assignment of Rights directly into the easement or lease document, thereby eliminating the requirement for a separate document. Language will depend on the situation; Sponsor must obtain RCO approval on the draft language prior to executing the easement or lease.
- E. **Real Property Acquisition and Relocation Assistance.** In the event that housing and relocation costs and procedures are required by local, state, tribal, or federal law, or rule; the Sponsor agrees to provide such housing and relocation assistance as a condition of the Agreement and receiving grant funds.
- F. **Buildings and Structures.** In general, grant funds are to be used for outdoor recreation, conservation, or salmon recovery. Sponsors agree to remove or demolish ineligible structures. Sponsor must consult with RCO regarding treatment of such structures and compliance with COMPLIANCE WITH APPLICABLE LAW SECTION, Archeological and Cultural Resources paragraph.
- G. **Hazardous Substances.**
 - 1) **Certification.** The Sponsor shall inspect, investigate, and conduct an environmental audit of the proposed acquisition site for the presence of hazardous substances, as defined in RCW 70.105D.020(13), and certify:
 - a) No hazardous substances were found on the site, or
 - b) Any hazardous substances found have been treated and/or disposed of in compliance with applicable state and federal laws, and the site deemed "clean."
 - 2) **Responsibility.** Nothing in this provision alters the Sponsor's duties and liabilities regarding hazardous substances as set forth in RCW 70.105D.
 - 3) **Hold Harmless.** Subject to the limitations provided in this Agreement, the Sponsor will defend, protect and hold harmless RCO and any and all of its employees and/or agents, from and against liability, cost (including but not limited to all costs of defense and attorneys' fees) and loss of any nature from any and all claims or suits resulting from the presence of, or the release or threatened release of, hazardous substances on the

property the Sponsor is acquiring, except to the extent, if any, that the State, its officers and agents, including RCO, caused or contributed to the release or should have inquired into or disclosed relevant information to the Sponsor.

LONG-TERM OBLIGATIONS OF THE PROJECTS AND SPONSORS

- A. **Long-Term Obligations.** Sponsor shall comply with the terms of this Agreement.
- B. **Perpetuity.** For acquisition projects, unless otherwise allowed by applicable manual, policy, program rules, or this Agreement, or approved in writing by RCO, RCO requires that the project area continue to function as intended after the period of performance in perpetuity. The ability for RCO to enforce this long-term obligation for an acquisition project shall be as prescribed in this Agreement.
- C. **Conversion.** The Sponsor shall not at any time convert any real property (including any interest therein) or facility acquired pursuant to this Agreement, unless provided for in applicable statutes, rules, and policies. Conversion includes, but is not limited to, putting such property to uses other than those purposes for which funds were approved or transferring such property to another entity without prior approval via a written amendment to the Agreement. All real property or facilities acquired with funding assistance shall remain in the same ownership and in public use/access status in perpetuity unless otherwise expressly provided in the Agreement or applicable policy or unless a transfer or change in use is approved by the RCO through an amendment. Failure to comply with these obligations is a conversion. Further, if the project is subject to operation and or maintenance obligations, the failure to comply with such obligations, without cure after a reasonable period as determined by the RCO, is a conversion. Determination of whether a conversion has occurred shall be based upon the terms of this Agreement, including without limitation all WACs and manuals deemed applicable and all applicable laws.

For acquisition projects that are expressly term limited in the Agreement, such as one involving a lease or a term-limited restoration, renovation or development project or easement, the restriction on conversion shall apply only for the length of the term, unless otherwise provided by this Agreement, any applicable manual or WAC, or any applicable state or federal law.

When a conversion has been determined to have occurred, the Sponsor is required to remedy the conversion per this Agreement and the applicable manuals, WACs and laws, and the RCO may pursue such remedies as the above allows.

CONSTRUCTION, OPERATION, USE, AND MAINTENANCE OF ASSISTED PROJECTS

The following provisions shall be in force for this agreement:

- A. **Property and facility operation and maintenance.** Sponsor must ensure that properties or facilities assisted with the grant funds, including undeveloped sites, are built, operated, used, and maintained:
- 1) According to applicable federal, state, and local laws and regulations, including public health standards and building codes;
 - 2) In a reasonably safe condition for the project's intended use;
 - 3) Throughout its estimated useful service life so as to prevent undue deterioration;
 - 4) In compliance with all applicable federal and state nondiscrimination laws, regulations and policies.
- B. **Open to the public.** Unless otherwise specifically provided for in the Agreement, and in compliance with applicable statutes, rules, and applicable WACs and manuals, facilities must be open and accessible to the general public, and must:
- 1) Be constructed, maintained, and operated to meet or exceed the minimum requirements of the most current applicable guidelines or rules, local or state codes, Uniform Federal Accessibility Standards, guidelines, or rules, including but not limited to: the International Building Code, the Americans with Disabilities Act, and the Architectural Barriers Act, as amended and updated.
 - 2) Appear attractive and inviting to the public except for brief installation, construction, or maintenance periods.
 - 3) Be available for appropriate use by the general public at reasonable hours and times of the year, according to the type of area or facility, unless otherwise stated in RCO manuals, by a decision of the RCO director in writing. Sponsor shall notify the public of the availability for use by posting and updating that information on its website and by maintaining at entrances and/or other locations openly visible signs with such information.

ORDER OF PRECEDENCE

This Agreement is entered into, pursuant to, and under the authority granted by applicable federal and state laws. The provisions of the Agreement shall be construed to conform to those laws. In the event of a direct and irreconcilable conflict between the terms of this Agreement and any applicable statute, rule, or policy or procedure, the conflict shall be resolved by giving precedence in the following order:

- A. Federal law and binding executive orders;
- B. Code of federal regulations;
- C. Terms and conditions of a grant award to the state from the federal government;
- D. Federal grant program policies and procedures adopted by a federal agency that are required to be applied by federal law;
- E. Applicable State law (constitution, statute);
- F. Applicable Washington Administrative Code;
- G. Applicable RCO manuals.

LIMITATION OF AUTHORITY

Only RCO's Director or RCO's delegate by writing (delegation to be made prior to action) shall have the authority to alter, amend, modify, or waive any clause or condition of this Agreement; provided that any such alteration, amendment, modification, or waiver of any clause or condition of this Agreement is not effective or binding unless made as a written amendment to this Agreement and signed by the RCO Director or delegate.

WAIVER OF DEFAULT

Waiver of any default shall not be deemed to be a waiver of any subsequent default. Waiver or breach of any provision of the Agreement shall not be deemed to be a waiver of any other or subsequent breach and shall not be construed to be a modification of the terms of the Agreement unless stated to be such in writing, signed by the director, or the director's designee, and attached as an amendment to the original Agreement.

APPLICATION REPRESENTATIONS – MISREPRESENTATIONS OR INACCURACY OR BREACH

The Funding Entity (if different from RCO) and RCO relies on the Sponsor's application in making its determinations as to eligibility for, selection for, and scope of, funding grants. Any misrepresentation, error or inaccuracy in any part of the application may be deemed a breach of this Agreement.

SPECIFIC PERFORMANCE

RCO may enforce this Agreement by the remedy of specific performance, which usually will mean completion of the project as described in this Agreement and /or enforcement of long-term or other obligations. However, the remedy of specific performance shall not be the sole or exclusive remedy available to RCO. No remedy available to the RCO shall be deemed exclusive. The RCO may elect to exercise any, a combination of, or all of the remedies available to it under this Agreement, or under any provision of law, common law, or equity, including but not limited to seeking full or partial repayment of the grant amount paid and damages.

TERMINATION AND SUSPENSION

The RCO will require strict compliance by the Sponsor with all the terms of this Agreement including, but not limited to, the requirements of the applicable statutes, rules, and RCO policies, and with the representations of the Sponsor in its application for a grant as finally approved by RCO. For federal awards, notification of termination will comply with 2 C.F.R. § 200.340.

A. For Cause.

- 1) The RCO director may suspend or terminate the obligation to provide funding to the Sponsor under this Agreement:
 - a) If the Sponsor breaches any of the Sponsor's obligations under this Agreement;
 - b) If the Sponsor fails to make progress satisfactory to the RCO director toward completion of the project by the completion date set out in this Agreement. Included in progress is adherence to

milestones and other defined deadlines; or

- c) If the primary and secondary Sponsor(s) cannot mutually agree on the process and actions needed to implement the project.
 - 2) Prior to termination, the RCO shall notify the Sponsor in writing of the opportunity to cure. If corrective action is not taken within 30 days or such other time period that the director approves in writing, the Agreement may be terminated. In the event of termination, the Sponsor shall be liable for damages or other relief as authorized by law and/or this Agreement.
 - 3) RCO reserves the right to suspend all or part of the Agreement, withhold further payments, or prohibit the Sponsor from incurring additional obligations of funds during the investigation of any alleged breach and pending corrective action by the Sponsor, or a decision by the RCO to terminate the Contract.
- B. **For Convenience.** Except as otherwise provided in this Agreement, RCO may, by ten (10) days written notice, beginning on the second day after the mailing, terminate this Agreement, in whole or in part when it is in the best interest of the state. If this Agreement is so terminated, RCO shall be liable only for payment required under the terms of this Agreement prior to the effective date of termination. A claimed termination for cause shall be deemed to be a "Termination for Convenience" if it is determined that:
- 1) The Sponsor was not in default; or
 - 2) Failure to perform was outside Sponsor's control, fault or negligence.
- C. **Rights or Remedies of the RCO.**
- 1) The rights and remedies of RCO provided in this Agreement are not exclusive and are in addition to any other rights and remedies provided by law.
 - 2) In the event this Agreement is terminated by the director, after any portion of the grant amount has been paid to the Sponsor under this Agreement, the director may require that any amount paid be repaid to RCO for redeposit into the account from which the funds were derived. However, any repayment shall be limited to the extent it would be inequitable and represent a manifest injustice in circumstances where the project will fulfill its fundamental purpose for substantially the entire period of performance and of long-term obligation.
- D. **Non Availability of Funds.** The obligation of the RCO to make payments is contingent on the availability of state and federal funds through legislative appropriation and state allotment. If amounts sufficient to fund the grant made under this Agreement are not appropriated to RCO for expenditure for this Agreement in any biennial fiscal period, RCO shall not be obligated to pay any remaining unpaid portion of this grant unless and until the necessary action by the Legislature or the Office of Financial Management occurs. If RCO participation is suspended under this section for a continuous period of one year, RCO's obligation to provide any future funding under this Agreement shall terminate. Termination of the Agreement under this section is not subject to appeal by the Sponsor.
- 1) **Suspension:** The obligation of the RCO to manage contract terms and make payments is contingent upon the state appropriating state and federal funding each biennium. In the event the state is unable to appropriate such funds by the first day of each new biennium RCO reserves the right to suspend the Agreement, with ten (10) days written notice, until such time funds are appropriated. Suspension will mean all work related to the contract must cease until such time funds are obligated to RCO and the RCO provides notice to continue work.

DISPUTE RESOLUTION

General. This Dispute Resolution section applies only to disputes between the Sponsor and RCO regarding the Parties rights and responsibilities under this Agreement, including disputes concerning any claims of the Parties for any indemnification pursuant to this Agreement for third party claims.

The parties shall, if possible, first attempt to resolve any disputes through Informal Negotiations as described below. If that is not possible or is unsuccessful, the parties shall elect to resolve the dispute through (1) a Dispute Hearing process if agreeable to both parties, or (2) binding arbitration; provided the Sponsor shall have the option to elect to resolve the dispute in state or federal court if such courts possess jurisdiction over the dispute in question.

For all of the dispute resolution methods, (1) each party shall bear its own attorney's fees and costs; and (2) during utilization of any and/or all of the mediation, arbitration and/or Dispute Hearing steps and processes, any statutes of limitation shall be tolled, and in no circumstances shall any time utilizing such steps and processes be considered when determining whether any statutes of limitation have expired.

Informal Negotiations. The parties shall attempt in good faith to resolve any dispute arising out of or relating to this Agreement promptly by negotiation between executives who have authority to settle the controversy and who are at a higher level of management than the persons with direct responsibility for administration of this Agreement. Any party may give the other

party written notice of any dispute not resolved in the normal course of business. Within 15 days after delivery of the notice, the receiving party shall submit to the other a written response. The notice and response shall include with reasonable particularity (a) a statement of each party's position and a summary of arguments supporting that position, and (b) the name and title of the executive who will represent that party and of any other person who will accompany the executive. Within 30 days after delivery of the notice, the executives of both parties shall meet at a mutually acceptable time and place.

Unless otherwise agreed in writing by the negotiating parties, the above-described negotiation shall end at the close of the first meeting of executives described above. Such closure shall not preclude continuing or later negotiations, if desired.

All offers, promises, conduct and statements, whether oral or written, made in the course of the negotiation by any of the parties, their agents, employees, experts and attorneys are confidential, privileged and inadmissible for any purpose, including impeachment, in arbitration or other proceeding involving the parties, provided that evidence that is otherwise admissible or discoverable shall not be rendered inadmissible or non-discoverable as a result of its use in the negotiation.

Dispute Hearing. In order for this section to apply to the resolution of any specific dispute or disputes, the other party must agree in writing that the procedure under this section shall be used to resolve those specific issues.

A party's request for a dispute hearing must be in writing and clearly state:

- A. The disputed issues;
- B. The relative positions of the parties;
- C. The Sponsor's name, address, project title, and the assigned project number.

The dispute shall be heard by a panel of three persons consisting of one person chosen by the Sponsor, one person chosen by the RCO director, and a third person chosen by the two persons initially appointed. If a third person cannot be agreed on, the third person shall be chosen by the funding board's chair.

Any hearing under this section shall be informal, with the specific processes to be determined by the dispute panel according to the nature and complexity of the issues involved. The process may be solely based on written material, if the parties so agree. The disputes panel shall be governed by the provisions of this Agreement in deciding the disputes.

The parties shall be bound by the majority decision of the dispute panelists, unless the remedy directed by that panel is beyond the legal authority of either or both parties to perform, as necessary, or is otherwise unlawful.

Request for a dispute hearing under this section by either party shall be delivered or mailed to the other party. The request shall be delivered or mailed within thirty (30) days of the date the requesting party has received notice of the action or position of the other party which it wishes to dispute, or completion of any Informal Negotiations conducted by the parties concerning the disputed action or position, whichever is later.

All fees and costs associated with the implementation of this process (excluding each party's own attorney's fees and costs) shall be shared equally by the parties.

Arbitration. In the event the Parties do not agree to resolve the dispute through a Dispute Hearing Process as set forth above, the parties shall resolve any controversy, claim or dispute concerning the making, formation, validity, obligations under, or breach of, this Agreement (Disputed Matter) through binding arbitration conducted under Judicial Arbitration and Mediation Services (JAMS) rules. Prior to invoking arbitration, the parties may agree to mediation, in which event the parties will use their best efforts to select a mediator as soon as possible. The mediator's costs and attendant costs of mediation shall be borne equally by the parties.

Either party may make a written demand for binding arbitration before a qualified arbitrator in Seattle, Washington, or at another place as the parties may agree in writing. Request for binding arbitration under this section by either party shall be delivered or mailed to the other party. The request shall be delivered or mailed within thirty (30) days of the date the requesting party has received notice of the action or position of the other party which it wishes to dispute, or completion of any Informal Negotiations conducted by the parties concerning the disputed action or position, whichever is later. A qualified arbitrator will mean a person generally familiar with the subject matter of the Disputed Matter with at least five years of arbitration experience, and knowledge of federal Indian law, if federal Indian law is part of the dispute. If the parties cannot agree on a single arbitrator, a three-person arbitration panel shall be selected as follows: each party shall select an arbitration panel member and the two selected panelists shall select a third. If the panelists cannot agree on a third arbitrator, the third arbitrator shall be selected by JAMS. The arbitration shall be administered by JAMS pursuant to its Expedited Procedures as now written or hereafter amended. Each party will pay for its own attorneys' fees and costs. The substantially prevailing party is entitled to reimbursement from the other party of all moneys it paid to the third arbitrator or JAMS related to the arbitration proceeding. The arbitrator's award shall be binding upon the parties and no appeal shall be permitted, except for a request to vacate under RCW 7.04A.230 or 9 U.S.C. § 10.

GOVERNING LAW/VENUE

This Agreement shall be construed and interpreted in accordance with the authorities set forth in the Order of Preference section. In the event of a lawsuit involving this Agreement, venue shall be in the jurisdiction where the project is situated, if venue there is legally proper, and if not, in another jurisdiction where venue is legally proper.

PROVISIONS FOR FEDERALLY RECOGNIZED INDIAN TRIBES

- A. Limited Waiver of Sovereign Immunity. The Tribe expressly retains all rights and benefits of sovereign immunity. Nothing in this Agreement shall be deemed as a waiver of sovereign immunity or as increasing the Tribe's liability beyond any statutory or other limitation of liability, except as expressly stated herein.

The Tribe hereby grants and provides a limited waiver of sovereign immunity for the following purposes as may be needed by Sponsor or RCO:

- 1) to enforce the terms of this Agreement, including the indemnification provisions, and any documents recorded pursuant to this Agreement, such as those related to real property interests in the form of deeds, easements, or covenants,
 - 2) to enforce the Dispute Resolution provisions of this Agreement,
 - 3) to compel arbitration of a Disputed Matter,
 - 4) to enforce any mediation agreement, Disputes Panel Decision, or Arbitration award or judgment, and/or vacate an Arbitration award or judgment under RCW 7.04A.230 or 9 U.S.C. § 10,
 - 5) to enforce the long-term obligations of this agreement.
- B. This limited waiver of sovereign immunity shall apply to all matters in the above subsection A in federal district court, and if the federal district court lacks jurisdiction, then in a State court of competent jurisdiction. Such court may render judgment and issue such orders as may be necessary to enforce such awards or judgments. This waiver does not extend to and is not for the benefit of any third party and shall not be enforceable by any third party or by any assignee of the parties; nor does it extend to any other type of action or to any other forum or regarding any other matter. No award for punitive damages of any kind may be made or enforced against the Tribe.

Duration of Limited Waiver of Sovereign Immunity described in subsection A above. The limited waiver of sovereign immunity shall apply during the period of performance of this Agreement and then be limited as follows:

- 1) For land acquisition projects: Limited to the 10 years following the end date of this agreement, however, the waiver shall be in perpetuity for fee simple property acquisitions or perpetual easements. However, the limited waiver of sovereign immunity in perpetuity is limited to the sole purpose of enforcing only subsections B and C of the Long-Term Obligations of the Projects and Sponsors section of this Agreement. Long-term obligations include any property or value owed to RCO for any conversion of the project real property to other purposes. For land acquisitions that are term limited, any limited waiver of sovereign immunity shall be limited to the longer of the 10 years following the end date of this agreement or the time required to enforce long-term obligations but only then for any relief owed to RCO for any conversion of real property to other purposes.
 - 2) For restoration projects: Limited to the 10 years following the end date of this agreement.
 - 3) For non-capital projects: Limited to the period of performance. Non-capital projects include Planning, Research, Monitoring, Education, Enforcement, Maintenance, Preliminary Design, Assessments, Acquisition of Water Rights, and Studies.
 - 4) For capital projects: Limited to the 25 years after the end date of this agreement. Capital projects include Development and Renovation (construction and/or renovation), and completed final designs.
- C. Liability Limits. Any payment of a monetary judgment arising from a resolution or judgment under the Dispute Resolution section, or any other defense and/or indemnity obligation under this Agreement, Sponsor's long-term obligations, or a default of an explicit duty owed by the Tribe to the RCO under the terms of this Agreement, shall be limited by and to the following:
- 1) For Noncapital Projects (Planning, Research, Monitoring, Education, Enforcement, Maintenance, Preliminary Design, Assessments, Acquisition of Water Rights, and Studies.): The RCO grant amount.
 - 2) For Restoration, Development (construction/renovation), Renovation, Acquisition, and completed final design projects: a per occurrence limit of \$1 million (with a maximum aggregate limit of \$3 million), or the grant amount, whichever greater, or in the case of a long-term obligation the cost of conversion or replacement property based on the current fair market value of a replacement property or an equivalent amount if the

Sponsor has not obtained or is unable to obtain replacement property.

- D. In disputes between the parties, each party shall bear its own attorneys' fees and costs. Attorneys' fees and costs in connection with third party claims subject to the Sponsor's indemnification of RCO shall not reduce or otherwise affect the Sponsor's liability limits in subsection C above.

E. Insurance

Sponsor shall provide RCO copies of its insurance policies that provide the coverage required per this agreement. RCO shall make these exhibits herein.

- 1) At its own expense, the Tribe shall procure and maintain insurance coverages for general liability (or marine general liability as may apply) covering claims for bodily injury, personal injury, or property damage arising out of or connected to the Tribe's acts, omissions, or other activities under this Agreement in such amounts no less than \$1 million per occurrence (with a maximum aggregate limit of \$3 million, or the grant amount whichever is greater).
 - a) CGL insurance must be written on Insurance Services Office (ISO) Occurrence Form CG 00 01 (or a substitute form providing equivalent coverage, which must be approved in advance of any grant by RCO). All insurance must cover liability arising out of premises, operations, independent contractors, products completed operations, personal injury and advertising injury, and liability assumed under an insured contract (including the tort liability of another party assumed in a business contract) and contain separation of insured (cross-liability) condition.
 - b) MGL insurance must have no exclusions for non-owned watercraft.
 - c) Errors and Omissions. The Tribe shall maintain insurance for Tribal Officials Errors and Omissions Liability and Miscellaneous Errors and Omissions Liability, with respect to the acts, omissions, or other activities of the Tribe and any person acting in his or capacity as a tribal council member, director, officer or manager or employee under this Agreement in such amounts no less than \$1 million.
- 2) Longshore and Harbor Workers' Act (33 U.S.C. Section 901 et seq.) and/or the Jones Act (46 U.S.C. Section 688) may require the Tribe to provide insurance coverage in some circumstances. The Tribe shall ascertain if such insurance is required and, if required, shall maintain insurance in compliance with law. The Tribe is responsible for all civil and criminal liability arising from failure to maintain such coverage.
- 3) Auto Policy Insurance. If the Tribe operates, maintains, loads, or unloads vehicles as part of the Activities, the Tribe shall maintain auto liability insurance and, if necessary, commercial umbrella liability insurance with a limit not less than Two Million Dollars (\$2,000,000) per accident, and the amount of excess liability coverage [shown in an exhibit, as may apply]. Such insurance must cover liability arising out of "Any Auto".
- 4) Tribe's insurance shall be issued by an insurance company or companies admitted to do business in the State of Washington and have a rating of A- or better by the most recently published edition of Best's Reports. If an insurer is not admitted, the insurance policies and procedures for issuing the insurance policies shall comply with Chapter 48.15 RCW and 284-15 WAC.
- 5) All insurance policies must name the RCO, and their officials, agents, and employees as an additional insured.
- 6) All insurance provided in compliance with this Agreement must be primary as to any other insurance or self-insurance programs afforded to or maintained by State.
- 7) The Tribe and its insurers shall waive all rights of subrogation against RCO for recovery of damages to the extent insurance maintained pursuant to this Agreement covers these damages.
- 8) The Tribe shall provide RCO with a certificate(s) of insurance executed by a duly authorized representative of each insurer, showing compliance with insurance requirements specified in this Agreement and, if requested, copies of full policies.
 - a) The certificate(s) of insurance must reference additional insureds and the Agreement number. Receipt of such certificates or policies by the RCO does not constitute approval by the RCO or the State of the terms of such policies nor does not represent that coverage and limits required under this Agreement are adequate to protect the Tribe.
- 9) The Parties shall use any insurance proceeds payable by reason of damage or destruction to property first to restore or replace the real property covered by this Agreement, then to pay the cost of the reconstruction, then to pay RCO any sums in arrears, and then to the Tribe.

- 10) If any liability or claim owned to RCO is not covered and payable by insurance, the Tribe shall pay such amounts from another source.

SEVERABILITY

The provisions of this Agreement are intended to be severable. If any term or provision is illegal or invalid for any reason whatsoever, such illegality or invalidity shall not affect the validity of the remainder of the Agreement.

END OF AGREEMENT

This is the end of the agreement.

Executive summary: Public Works requests an amendment to their Personal Services Agreement to add to the scope of Olympic Discovery Trail (ODT) improvement projects under their current \$150,000 lodging tax grant. The added scope of work is for the ODT-Dawley Road Area Trail Stabilization and Restoration Project. This project would apply their lodging tax grant award also to support construction related costs to stabilize, repair and restore an ODT section located just east of Dawley Road (between Sequim Bay State Park and Blyn) that has experienced a significant loss of trail width and also damage (e.g., cracks) to the remaining trail surface due to trail movement and slumping. At their July 8, 2021 meeting, the Lodging Tax Advisory Committee (LTAC) considered and recommended approval of this ODT scope of work amendment. Attached are the PSA Amendment and the Public Works letter to LTAC about the scope of amendment change.

Budgetary impact: (Is there a monetary impact? If so, are funds for this already allocated or is a budget change necessary? If this is a contract and a budget change is necessary, the budget change form must be submitted with the item at work session and for the regular agenda) **If a budget action is required, has it been submitted and a copy attached?** ☐

The \$150,000 is already budgeted. There is no change in funding only the scope of work.

Recommended action: (Does the Board need to act? If so, what is the department's recommendation?)

Please review and approve the PSA Amendment for the scope of work addition.

TO: Lodging Tax Advisory Committee

SUBJECT: Request to Use Part of \$150,000 2021 Lodging Tax Grant Award for ODT-Dawley Rd. Area Trail Stabilization and Restoration Project.

The Clallam County Public Works/Road Department requests consideration by the Lodging Tax Advisory Committee (LTAC) to use part of our Year 2021 \$150,000 Lodging Tax Grant Award to stabilize and restore a significantly damaged section of the Olympic Discovery Trail (ODT) located between Sequim and Blyn near the east of the end of Dawley Road. Attached is a map of the general project site location.

The Issue

The approximately 150-foot long impacted trail section is on a hillside just below US 101. It has sustained continued trail loss and damage (e.g., cracks, dips) over the past several years due to trail slumping. In this section, the original 10-foot wide paved trail and gravel shoulder has been reduced in width. At the narrowest point, the trail surface has only a 3 to 3.5 foot useable width that is sandwiched between a vertical gabion wall on the upslope side and an abrupt irregular edge and drop-off on the downslope side. Attached are several photos illustrating trail loss and surface impacts.

This damaged section is part of the ODT route between Sequim and Blyn (includes a section thru Sequim Bay State Park) and experiences heavy use. It is also part of the route of a number of trail events such as the North Olympic Discovery Marathon, Frosty Moss Relay, Run the Peninsula as well as other events. The ODT and related events attract thousands of visitors annually to Clallam County. Many ODT users and event participants stay at our local hotels, motels, B&B's, RV-parks, campgrounds and other lodging establishments as well as frequenting other local businesses.

Based on current conditions, there is a high risk that further trail loss will result in the need to close this section of the ODT. If closed, trail users travelling between Sequim and Blyn will either need to turn-around at the closure point or use busy US 101 to detour around.

Key Efforts To-Date

Over the past couple of years the Road Department has performed a number of asphalt patches to address reoccurring cracks and dips in this impacted trail section. While patching helps, it does not address loss of trail width or eliminate all undesirable cracks, dips, and bumps on the remaining trail surface. We have also placed and maintained warning fencing and cones along the failed trail edge and installed warning signs on both ends of the impacted trail section.

In 2020/2021, the Road Department conducted a site assessment to identify possible underlying factors contributing to trail loss and damage. One outcome of this assessment was that the Washington State Department of Transportation (WSDOT) cleaned-out manhole area on south-side of US 101 and blew-out pipes that convey stormwater under the highway for discharge below the damaged trail section. Following the clean-out, Sequim assisted the County and WSDOT in using their remote camera to

obtain a visual of the integrity of conveyance pipes under US 101. The Road Department monitored the section for continued trail loss and damage (e.g., cracking) over the 2020/2021 winter/spring season. This monitoring showed some trail edge loss and cracking, but significantly less than in the past.

County engineers recently completed a design to stabilize and restore this damaged trail section. The design includes significant excavation of hillside materials, building a Flex MSE Vegetated Wall System on the downslope side of the trail, backfill behind the wall, and restoring a trail base width of at least 10 feet wide. The innovative wall design will allow for plant growth to blend in with the environment and further strengthen the wall over-time. Attached are two trail examples of applications of the Flex MSE Vegetated Wall System from the vendor.

Our Request

This project is now "shovel ready" and we are requesting LTAC support to apply part of our 2021 Lodging Tax grant award to fund this major trail stabilization and restoration project. This project goes well-beyond normal maintenance the Road Department budgets for the ODT. Our request will allow us to restore this damaged trail section without significantly impacting our maintenance budget for the rest of the County ODT managed sections.

The total project materials and construction costs are estimated at around \$100,000 as summarized below. Labor costs are based on an estimated 10 working days of a County work crew. Major labor work items include site preparation (e.g., heavy equipment access); excavation (500-750 cubic yards); wall bag filling (~ 2000 bags), wall building (i.e., bag placement), backfill behind wall, and preparation of trail surface base.

Budget Estimate

Cost Item	Costs
Materials to Construct Wall (~ 2000 sand type bags, intervening bag plates, and geogrid reinforcement system).	\$18,422
Geoform Blocks	\$8,827
Sandbag Filling Machine (need to fill over 2000 sand bags for wall)	\$17,000
Compost Material Mix for Wall Bags	\$1,300
Estimated Labor Costs	\$55,000*
Total Estimated Costs	\$100,549

This request does not mean we are putting on hold our ODT-Forks to La Push trail corridor acquisition project currently supported by our 2021 Lodging Tax Grant Award. The appraisal work for a significant part of the needed trail corridor is under contract and in process.

Thank you for your consideration. I will attend the July 8 meeting to answer any questions you may have related to our request.

Sincerely,

Steve Gray

CDBG HUD CARE FUNDS DISCUSSION—PROVIDE STATUS UPDATE AND DISCUSS A PROPOSED CHANGE IN HOW CDBG FUNDS WOULD BE ALLOCATED UNDER THE CONSORTIUM APPLICATION

BACKGROUND:

Community Development Block Grants (CDBG) thru the CARES act are fairly flexible HUD Federal Funds issued to:

- States
- certain "Entitlement" Counties and
- certain "Entitlement" Cities.

Clallam County, Port Angeles, Sequim and Forks are not "entitlement" jurisdictions. Therefore, any funds we receive from the program come from the state of WA through the Department of Commerce. These funds are referred to as non-entitlement funds.

These funds target people and microenterprise small business owners in the low to moderate household income levels. Based on the "80% of average household income" for Clallam County citizens, those income levels for 2019 are defined as follows:

- 1 person household: \$37,200
- 2 person household: \$42,600
- 3 person household: \$47,900
- 4 person household: \$53,200
- 5 person household: \$57,900
- And it goes up from there.

Microenterprise business eligibility criteria include:

Agenda Item Summary --CDBG HUD Grant Consortium Update

** Regular Meeting - Submit 1 single sided/not stapled copy and originals (1 or 3 copies)

Revised: 3-04-2019

Questions? Call Loni Gores, Clerk of the Board, ext 2256

- Businesses with 5 or fewer employees (including the owner), and
- The household income of the business owner must be low or moderate as defined above.

WHAT CAN THE CDBG HUD FUNDS BE USED FOR?

As previously discussed with the BOCC last year, Washington State Department of Commerce is targeting its non-entitlement funds for:

- CDBG eligible public services (short-term rent/mortgage and utility payments, legal aid, emergency housing, food services, etc.);
- Local microenterprise assistance programs;
- Public health, emergency response, or
- Temporary housing facilities that address COVID-19 impacts, and
- Its grant administration.

The local government CDBG recipient (aka “recipient grantee”) may partner with a service provider/s (aka “subrecipient grantee”) to distribute CDBG funded services.

FUNDING AVAILABLE

The first round of State CDBG funding available to the State is \$7.7M (CV1). There was a second round of \$23M (CV2).

In the initial round of funding, Clallam County jurisdictions are eligible to receive a maximum of \$351,146 in total, broken down as follows and as outlined in the attached funding distribution list:

CV1	
Clallam County	\$154,696
Forks	\$25,442
Port Angeles	\$117,200
Sequim	\$50,808
Total	\$351,146

These funds have been allotted to each entity by Commerce (no competitive application process involved), and the grant funds are handled on a reimbursement basis (as opposed to a direct upfront funding). The amounts above are before allocation of \$4,000 to cover administrative costs.

In addition to the CV1 funds made available, a total of \$253,478 of additional CV2 funding was made available to the Clallam County jurisdictions consortium, bringing the total amount of CDBG funding available to \$604,624.

PROPOSED PLAN FOR CONSIDERATION:

As discussed with the Commissioners back on the May 26, 2020 work session, a course of action was discussed as follows:

Proposed conceptual framework:

1. The City of Port Angeles had agreed to be the grant applicant for the County and three Cities under a consortium application in order to reduce the administrative burden and to combine funding resources.
2. The City of Port Angeles would hold a required Public Hearing on June 2nd seeking public comment on this program. A public notice of this hearing would be required to be sent by May 27th to satisfy the 5-day notice requirement for this program.
3. The County and three Cities potentially would need to sign an Interlocal Agreement.

4. The original proposal was for the City of Port Angeles to enter into three sub-recipient agreements with the City of Forks, the Clallam PUD and the Clallam County EDC as The City wanted to limit the number of sub-recipient contracts to help keep the additional administration burden manageable.
5. The amount of funding allocated to each purpose will be established by the elected officials. The city staffs have been communicating with their respective elected officials and have received some general direction.
6. The attached chart depicts the general intent for the funds originally.

UPDATE

The City of PA has completed its application process for CV1 funds and is in the process of preparing the application for CV2 funds by July 31, 2021. Once completed and submitted, the CDBG contract with Commerce will reflect a combined CDBG-CV1 and CV2 funds. However, as this process has unfolded, an issue has come up regarding the microenterprise grants to be funded.

Based on upon recent discussions with the jurisdictions and Clallam EDC, Clallam EDC has indicated that it will not be able to be a subrecipient of these CDBG funds and distribute them toward microenterprise businesses. This is based on concerns raised of the extensive documentation requirements mandated by CDBG as it relates to providing microenterprise grants, and the feasibility of gathering this information given the microenterprise community's very limited resources and capabilities to produce such information. To ensure microenterprises who are in need of assistance receive it and provide them a more simplified approach to securing such funding, Clallam EDC suggested it is more feasible and much less burden on microenterprises to direct them instead to apply for aid through the EDC's LifeBoat 3 program to be funded by the \$3 million of committed County ARPA funds rather than through the CDBG program.

As a result, the working group would like to make the recommendation that the CDBG funds originally slotted for microenterprise grants (equal to approximately 36.9% or approximately \$223k of CDBG CV1 & CV2 funds awarded) be re-directed to either:

1. Utility reimbursements (where PA would administer their allotted portion to PA utilities customers and Clallam PUD would be a subrecipient for all non-City of P.A. utilities customers that apply for assistance) ; or for
2. Rental reimbursements (where either OlyCap or Serenity House become subrecipients since they have rental assistance programs already in place, while the City of P.A. would likely handle P.A. resident requests).

Allocation of CV2 funds would likely follow the same apportionment %s as reflected in the CV1 distribution charts. If this is an acceptable path forward, further details would need to be worked out and conversations would need to occur with OlyCap and/or Serenity House. All in all, those are considered subsidy type payments which are allowable under the CDBG program as long as the households meet the household income requirements.

The proposed re-distribution of funds allotted for microenterprises to other subsistence (rental/utility) assistance would be based on the relative %s of how CV1 funds were originally spread for subsistence assistance by jurisdiction. See the second attached chart for CV1 funds.

NEXT STEPS

If the BOCC is in support of this concept of redirecting CDBG microenterprise funding to subsistence assistance and instead direct microenterprises to seek aid under the EDC's ARPA-funded Lifeboat 3 program, the City of Port Angeles would like to proceed with having further discussions with OLYCAP and Serenity House to discuss their willingness to serve as subrecipients to administer housing assistance for this CDBG program, and modifying its consortium application/contract with the Department of Commerce for this revised plan for use of funds.

Budgetary impact: (Is there a monetary impact? If so, are funds for this already allocated or is a budget change necessary? If this is a contract and a budget change is necessary, the budget change form must be submitted with the item at work session and for the regular agenda) **If a budget action is required, has it been submitted and a copy attached?** ☐

None—as consortium grant revenues and expenditures would be administered through City of PA and the CDBG subrecipients.
